

CLOUD-BASED ACCESS CONTROL PLATFORM

Salto KS

Scalable, and flexible cloud-based smart access control solution with best-in-class real-time capabilities.

SALTO WECOSYSTEM

Empowering smarter access

The SALTO WECOSYSTEM is more than a group of companies and individuals. We're a community born out of a common goal: empowering access, in every sense - access to places, experiences and opportunities.

Our expert global teams collaborate closely, driven by a dynamic spirit and a shared passion that mean every part of our WECOSYSTEM is fully connected.

Each of our companies embrace the latest technologies and prioritises the open exchange of ideas to unlock new ways of working - So we can keep pushing, keep innovating and keep delivering solutions that enable people to access more together.

We believe that our industry still has a long way to go, and we want to have an active role in the exciting journey ahead.

About Salto

Pioneering facility access, identity management and electronic locking technology that ensures seamless, reliable and secure experiences.

About Salto

Who we are

Salto is a leading global access solutions provider, part of the SALTO WECOSYSTEM.

We develop pioneering facility access, identity management and electronic locking technology that ensures seamless, reliable and secure experiences.

Through close customer relationships and innovative solutions, our global team of experts create timeless and meaningful products that positively impact people and planet

Accelerate the door transition to smart access

Salto aims to have a leading role in the unstoppable process of the massive replacement of mechanical keys with electronic digital keys, which has positioned us as one of the three leading manufacturers of electronic locks worldwide.

Our goal is to develop products and technologies adapted to the global needs of different industries through reliable smart access solutions ecosystem that are easy to install, use, and maintain.

Commitment to quality and information security

Regulatory compliance is essential in building trust and confidence in the effectiveness of our products. Our in-house testing ensures each and every product we sell surpasses the legal standards set by official regulatory bodies.

ISO 9001

These important certifications validate the quality of our products.

ISO 14001

Ensuring consistent building quality and that environmental norms are met.

ISO 27001

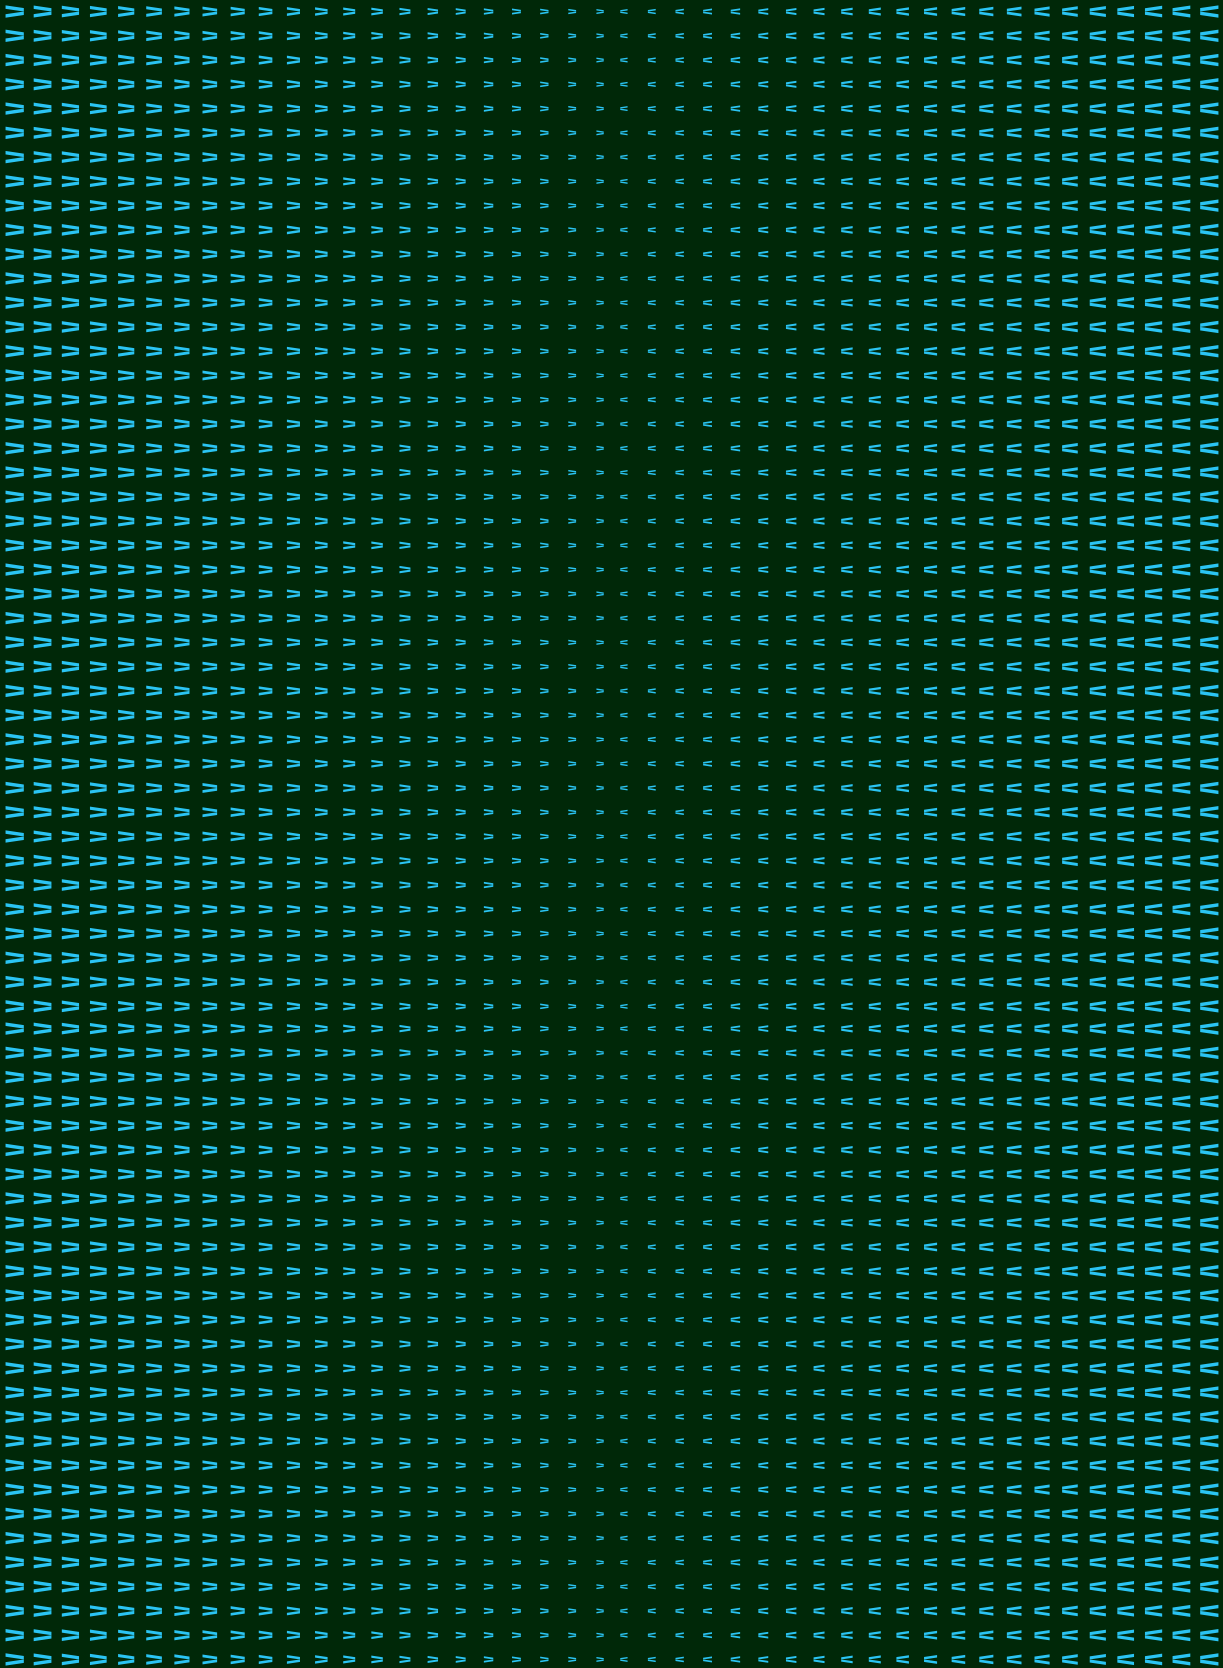

Committed to the highest security and data protection principles.

ECOVADIS

EcoVadis has ranked Salto Systems in the top 25% of companies with the best performance in terms of sustainability policies.

BSI Kitemark™

This cyber/physical security scheme forms the security element of the BSI Kitemark for IoT/Connected products.

Salto KS

Salto KS (KaaS: Keys as a Service) is a scalable cloud-based Access Control as a Service (ACaaS) solution that's built to fit your business needs, today and tomorrow.

Cloud-based Access Control Platform

KS

Scalable, and flexible cloud-based smart access control solution with best-in-class real-time capabilities.

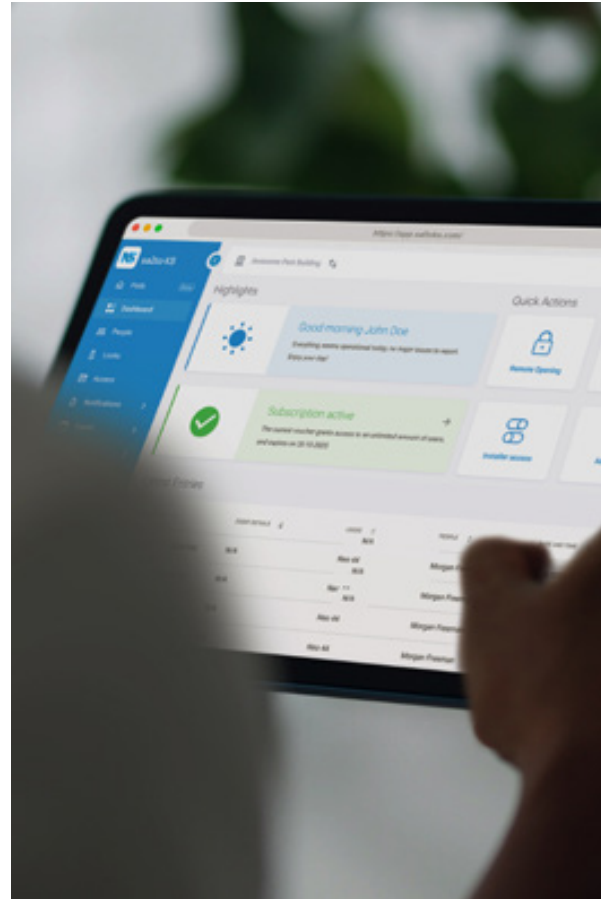

Seamless, keyless, wireless. The complete cloud-based smart access platform.

Salto KS (KaaS: Keys as a Service) is a scalable, cloud-based Access Control as a Service (ACaaS) solution that's built to meet your business needs, today and tomorrow. Enjoy complete control of all functions and features from the web app or use the mobile app to track events, unlock doors remotely, or block users on the go, managing all doors, users, and locations in real time, wherever you are.

Salto KS smart access solution offers multiple ways to open doors, including digital keys. It supports a wide range of keyless access methods to improve the user experience and security of any type of building. It also delivers advanced security features on a fully remote and wireless cloud-based smart access management platform.

Main Features

Salto KS is a reliable cloud-based access control solution with a unified software/hardware architecture and an open ecosystem. Designed to secure every door in a building and make access control more effortless than ever, it provides your business with a flexible platform to manage unlimited locations – all from one dashboard.

01

Application

Flexible and scalable access control solution, including event reporting and 24/7 status, for small and midsize businesses to large enterprises and multi-site organizations.

02

Technology

All-in-one access control platform with endless cloud-based integration possibilities.

03

Capability

Grant access easily with a range of different access control methods. Select the day(s), timeframe(s), and lock(s) to grant access to specific users.

04

Performance

Gain activity insight in real-time. Notifications for specific events include rejected entries, doors left open, or system maintenance tasks.

The industry-leading cloud-based access control solution

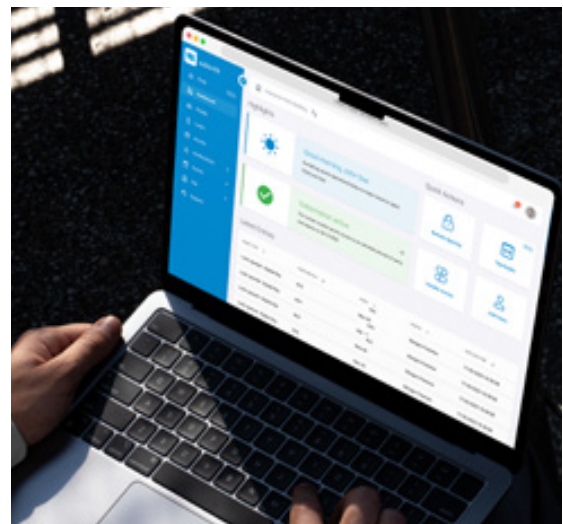

Take advantage of a smart and secure cloud infrastructure, both online and offline. The Salto KS access control solution provides an intuitive user experience with easy third-party app integration via our API.

Always up to date from anywhere in real time

The Salto KS cloud technology delivers security with more simplicity, greater value, faster response time, and a better user experience.

Enjoy complete control from the web app, and monitor every access point remotely from anywhere, at any time, and on any device, for even greater flexibility. There's no need to worry about backups, maintenance, or physical on-premise server requirements – use the mobile app to track events, unlock doors remotely, or block users on the go.

Analyse valuable data and gain activity insight

With Salto KS, you can always track who goes where and when.

You can even set notifications for specific events so that you're always up to date. If tags are stolen or lost, simply block the tags or user access and assign new ones – instantly, from any device.

Manage access easily and securely

Help staff, residents, and visitors come and go more quickly.

Collect all user access rights on a single, smart RFID tag, send and receive digital keys, or unlock doors remotely – via PIN code, smart key tag, or even your smartphone.

Streamline your operations with unlimited integration support

The Salto KS cloud-based platform delivers a secure, global, and scalable access control solution for any type of facility or business.

Integrating your access control system with a connection to new and innovative services through third-party providers is quick and secure. Salto KS ensures unprecedented control, dramatic cost reduction, and increased flexibility.

The scalable and flexible cloud-based access control solution with best-in-class capabilities in real-time

The Salto KS advanced cloud-based electronic access control platform delivers a global and scalable solution suitable for a wide range of businesses, from working spaces to retail.

Our cloud-based infrastructure makes it easy to integrate your access control system with other software platforms and connect with existing building applications. It's a flexible platform for your business with best-in-class real-time capabilities. It requires no software installation and can be managed remotely, with endless integration possibilities.

Cloud software

Streamline your operations.

An all-in-one, user-centered, cloud software platform gives you ultimate control and blends seamlessly with your existing building operations.

Access methods

Access made easy, smart and secure.

Manage access easily and straight from your smartphone or smartwatch. Incredibly convenient for staff, guests, visitors, or residents – it makes distributing and managing keys easier than ever for system operators.

- > Smart Tag
- > KS Keychain Mobile App
- > PIN Code
- > Remote Opening

Hardware

Electronic locking solutions for every access need.

Salto's advanced and easy-to-retrofit wireless electronic locking solutions are suitable for every type of access point: doors, perimeter access, lift access, fire doors, emergency exits, locker locks and more.

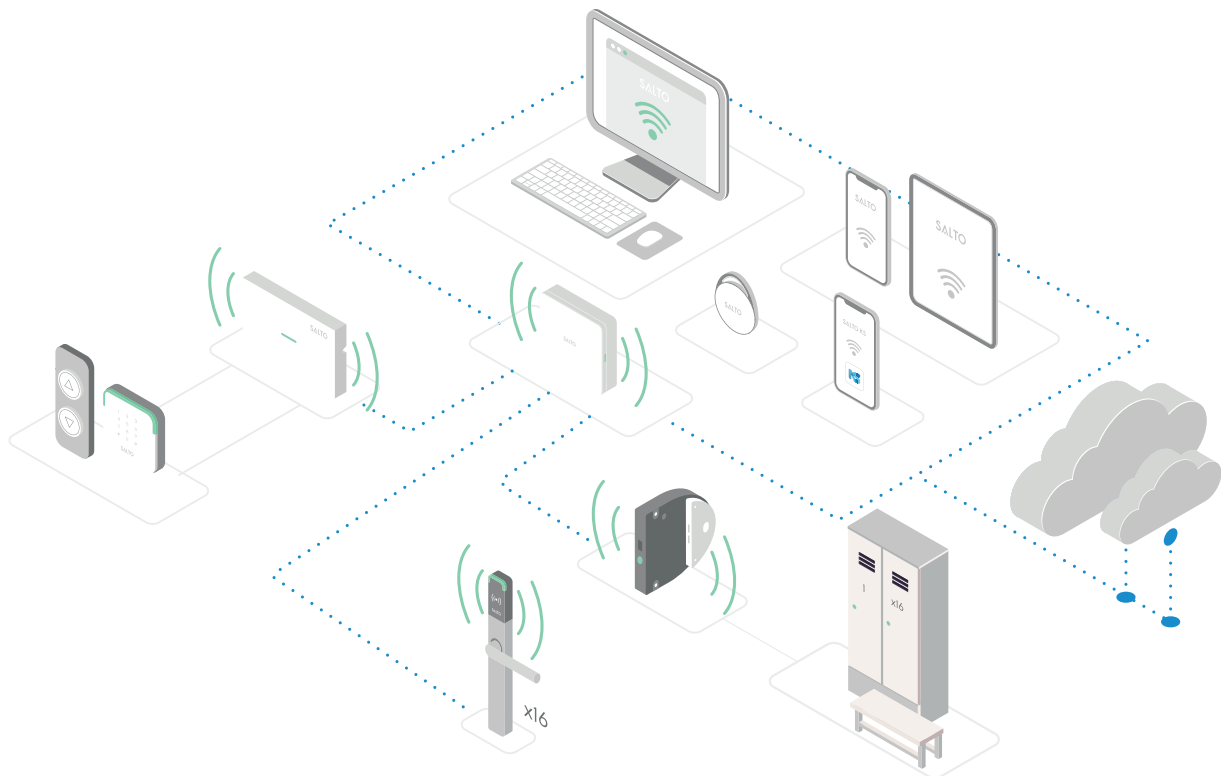

Ecosystem

Integrations-ready to support Smart Building Ecosystems

By leveraging our API, you open up to a world of industry-leading technology partners. Thanks to our collaboration with these partners, we are able to offer the most comprehensive range of smart solutions.

How Salto KS works

Salto KS cloud-based access control is a flexible solution that requires no software installation with remote management capabilities and endless integration possibilities. All you need is a Salto wireless smart door lock, an IQ, and an online device with an Internet connection.

Enhanced Control

User-centered, web-based management software delivers enhanced control, and integrates seamlessly with existing operations.

Electronic Locks and Lockers

Smart, modern designs; easy to install and maintain. Avoids the cost and complexity of traditional mechanical access solutions.

Digital Key

Makes access easier for staff, users & visitors. Options include smartphones (iOS or Android), smart credential, or PIN Code.

Integrations

Open-API methodology allows easy integration with third parties for a comprehensive Smart Building ecosystem.

Robust security, safety and privacy.

At Salto KS, our infrastructure is maintained and updated continuously, with high-end security practices that consist of multiple security layers ranging from 2FA to user provisioning. As an ISO 27001-certified business, we have capable security tools in place to ensure data security, stability and availability of the platform. We regularly carry out penetration tests to evaluate our different security mechanisms.

Salto KS is constantly updated so that it is compatible with new hardware releases from Salto Systems.

Easier and more secure than using traditional keys

Enjoy complete control of all functions and features from the web app to track events, unlock doors remotely, or block users on the go, managing all doors, users, and locations from a single platform.

The Salto KS cloud-based smart access solution makes things appear simple, but they are not. When a system operator creates a new user, they can enable different access methods and select doors, dates and time frames, and connect our system with their preferred third-party integrations.

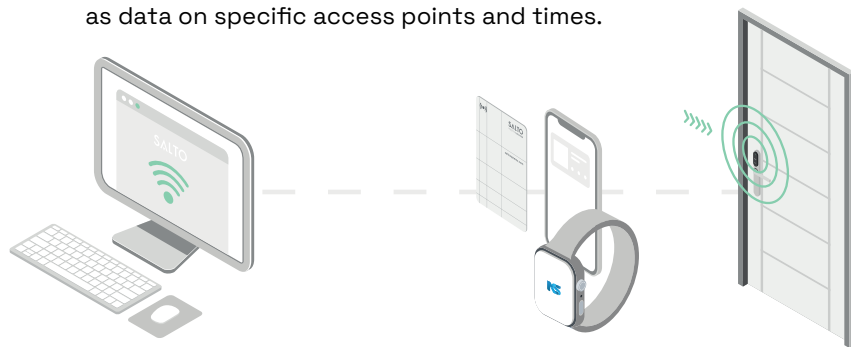

Securely manage access:

Unlock doors using your phone's Digital Key, a PIN Code, or a physical credential.

Real-time access control platform:

Cancel a user or disable a lost key from the Salto KS dashboard or mobile app instantly. Have full control over who is accessing as well as data on specific access points and times.

Integrations:

Simplify complexity and manage multiple systems and setups using a single platform.

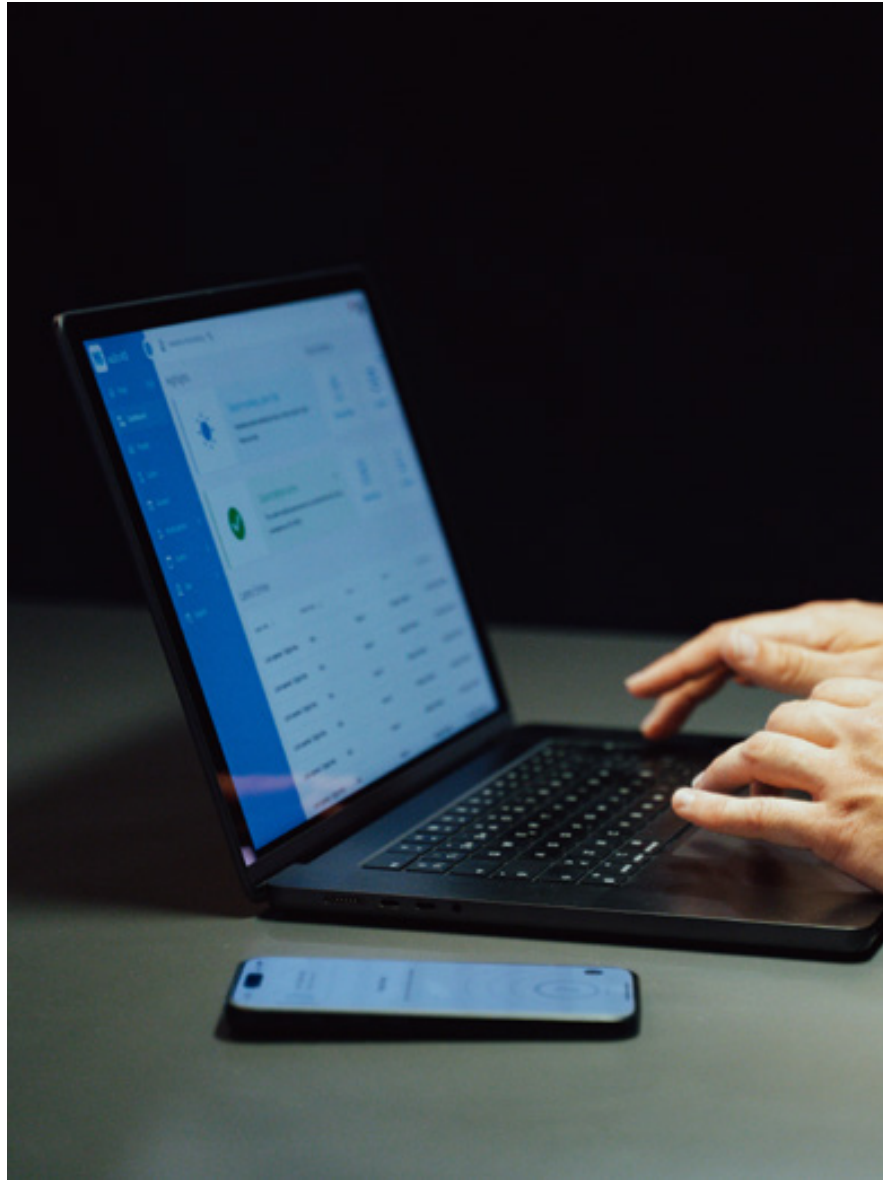

Access control management made simple

Salto KS (Keys as a Service) is a scalable and advanced cloud-based Access Control as a Service (ACaaS) solution that's built to fit the needs of small businesses and large enterprises alike – today and tomorrow.

Have full control of all functions & features from the web app. And on-the-go, use the mobile app for keeping track of events, remote unlocking and blocking. Directly go to app.saltoks.com or download the mobile app for iOS or Android.

Salto KS offers an easy to use, intuitive interface that allows you to define who goes where and when. Simply select the day(s), timeframe(s) and lock(s) to grant access for specified users.

Pioneering technology

User-centred web-based access control management software delivers enhanced security and integrates seamlessly with existing operations.

Keyless access convenience

Easier access for staff, users, and visitors. Options include smartphones (iOS and Android), smart credentials, and PIN codes.

Reliable, wireless, easy-to-install

Smart, modern design, easy to install and maintain, avoiding the cost and complexity of traditional mechanical access solutions.

Smart Building Integration

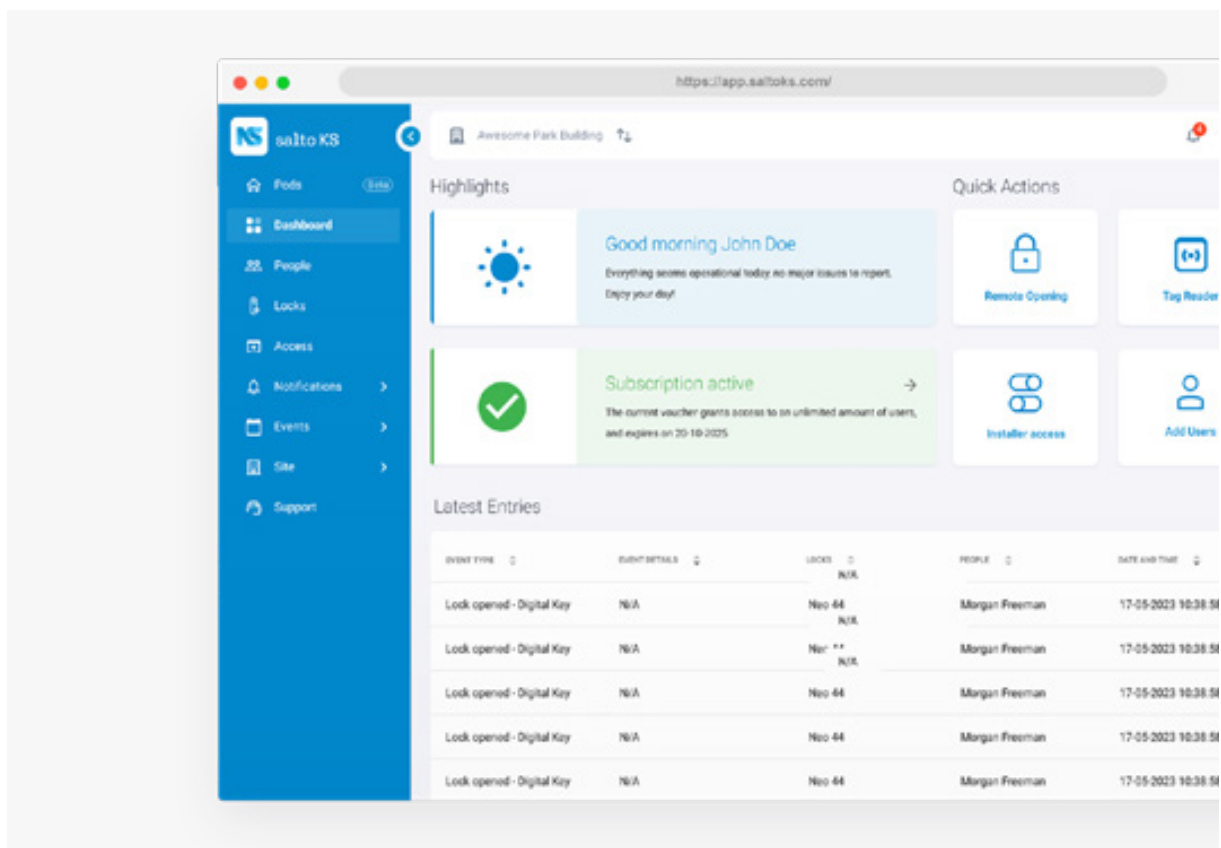

API-ready architecture allows easy integration with third-party solutions for a comprehensive smart building ecosystem.

Management Software

Salto KS

Salto KS is a scalable web- and app-based system that meets all of your access control needs, and can completely eliminate operational challenges and security risks.

Enjoy complete control of all functions and features from the web app to track events, unlock doors remotely, or block users on the go, managing all doors, users, and locations from a single platform.

Intuitive management

Manage your access control, users, and doors, and analyse operations from a single control panel whenever you need to, from any device – all in just a couple of clicks.

Real-time visibility

Monitor door activity, change door mode status, and perform remote actions at any time and from anywhere, leveraging the capabilities of a cloud-ready infrastructure.

Designed to scale with ease

Enjoy support for unlimited sites, doors, users, roles, and groups.

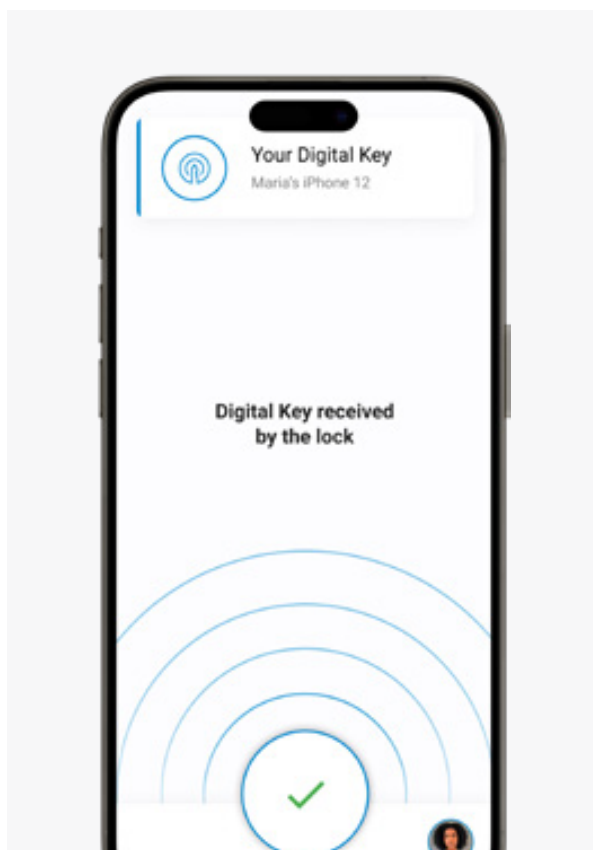

Operations and maintenance

Perform remote installation diagnostics, run reports, check battery status to optimise maintenance and many other actions.

Mobile Access

KS Keychain

The power of digital key technology for a simple and modern access option.

KS Keychain App

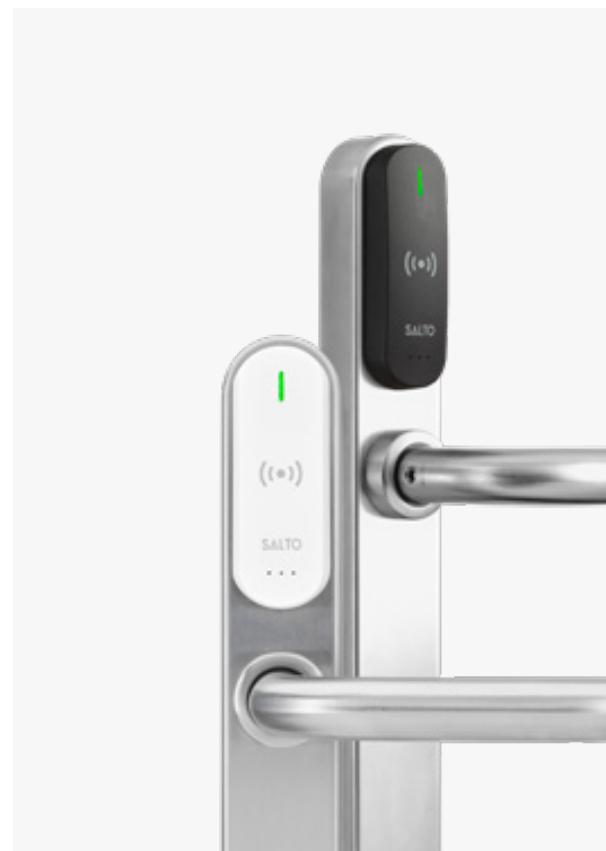

Allow users the option of using their device to unlock doors. Instantly unlock using Digital Key via widget, smartwatch, or NFC technology, with NFC available on Android devices.

Electronic Locking Technology

XS4

The Salto XS4 electronic smart door lock model delivers next-level security, customisation, and keyless smart access control.

Choose from a wide range of designs, finishes, locks, and reader options and models to delivers next-level security, customisation, and keyless smart access control.

Install and retrofit standard doors effortlessly.

One of the standout features of the XS4 electronic locking models is its effortless installation and retrofitting capabilities. With a blend of appealing design and sophistication, robustness, and advanced smart access technology, this electronic lock is the perfect solution for any building or door.
