

DOOR INTERCOM

Salto XS4 Com

The ultimate door intercom solution
for modern buildings.

SALTO WECOSYSTEM

Empowering smarter access

The SALTO WECOSYSTEM is more than a group of companies and individuals. We're a community born out of a common goal: empowering access, in every sense - access to places, experiences and opportunities.

Our expert global teams collaborate closely, driven by a dynamic spirit and a shared passion that mean every part of our WECOSYSTEM is fully connected.

Each of our companies embrace the latest technologies and prioritises the open exchange of ideas to unlock new ways of working - So we can keep pushing, keep innovating and keep delivering solutions that enable people to access more together.

We believe that our industry still has a long way to go, and we want to have an active role in the exciting journey ahead.

About Salto

Pioneering facility access, identity management and electronic locking technology that ensures seamless, reliable and secure experiences.

About Salto

Who we are

Salto is a leading global access solutions provider, part of the SALTO WECOSYSTEM.

We develop pioneering facility access, identity management and electronic locking technology that ensures seamless, reliable and secure experiences.

Through close customer relationships and innovative solutions, our global team of experts create timeless and meaningful products that positively impact people and planet

Accelerate the door transition to smart access

Salto aims to have a leading role in the unstoppable process of the massive replacement of mechanical keys with electronic digital keys, which has positioned us as one of the three leading manufacturers of electronic locks worldwide.

Our goal is to develop products and technologies adapted to the global needs of different industries through reliable smart access solutions ecosystem that are easy to install, use, and maintain.

Commitment to quality and information security

Regulatory compliance is essential in building trust and confidence in the effectiveness of our products. Our in-house testing ensures each and every product we sell surpasses the legal standards set by official regulatory bodies.

ISO 9001

These important certifications validate the quality of our products.

ISO 14001

Ensuring consistent building quality and that environmental norms are met.

ISO 27001

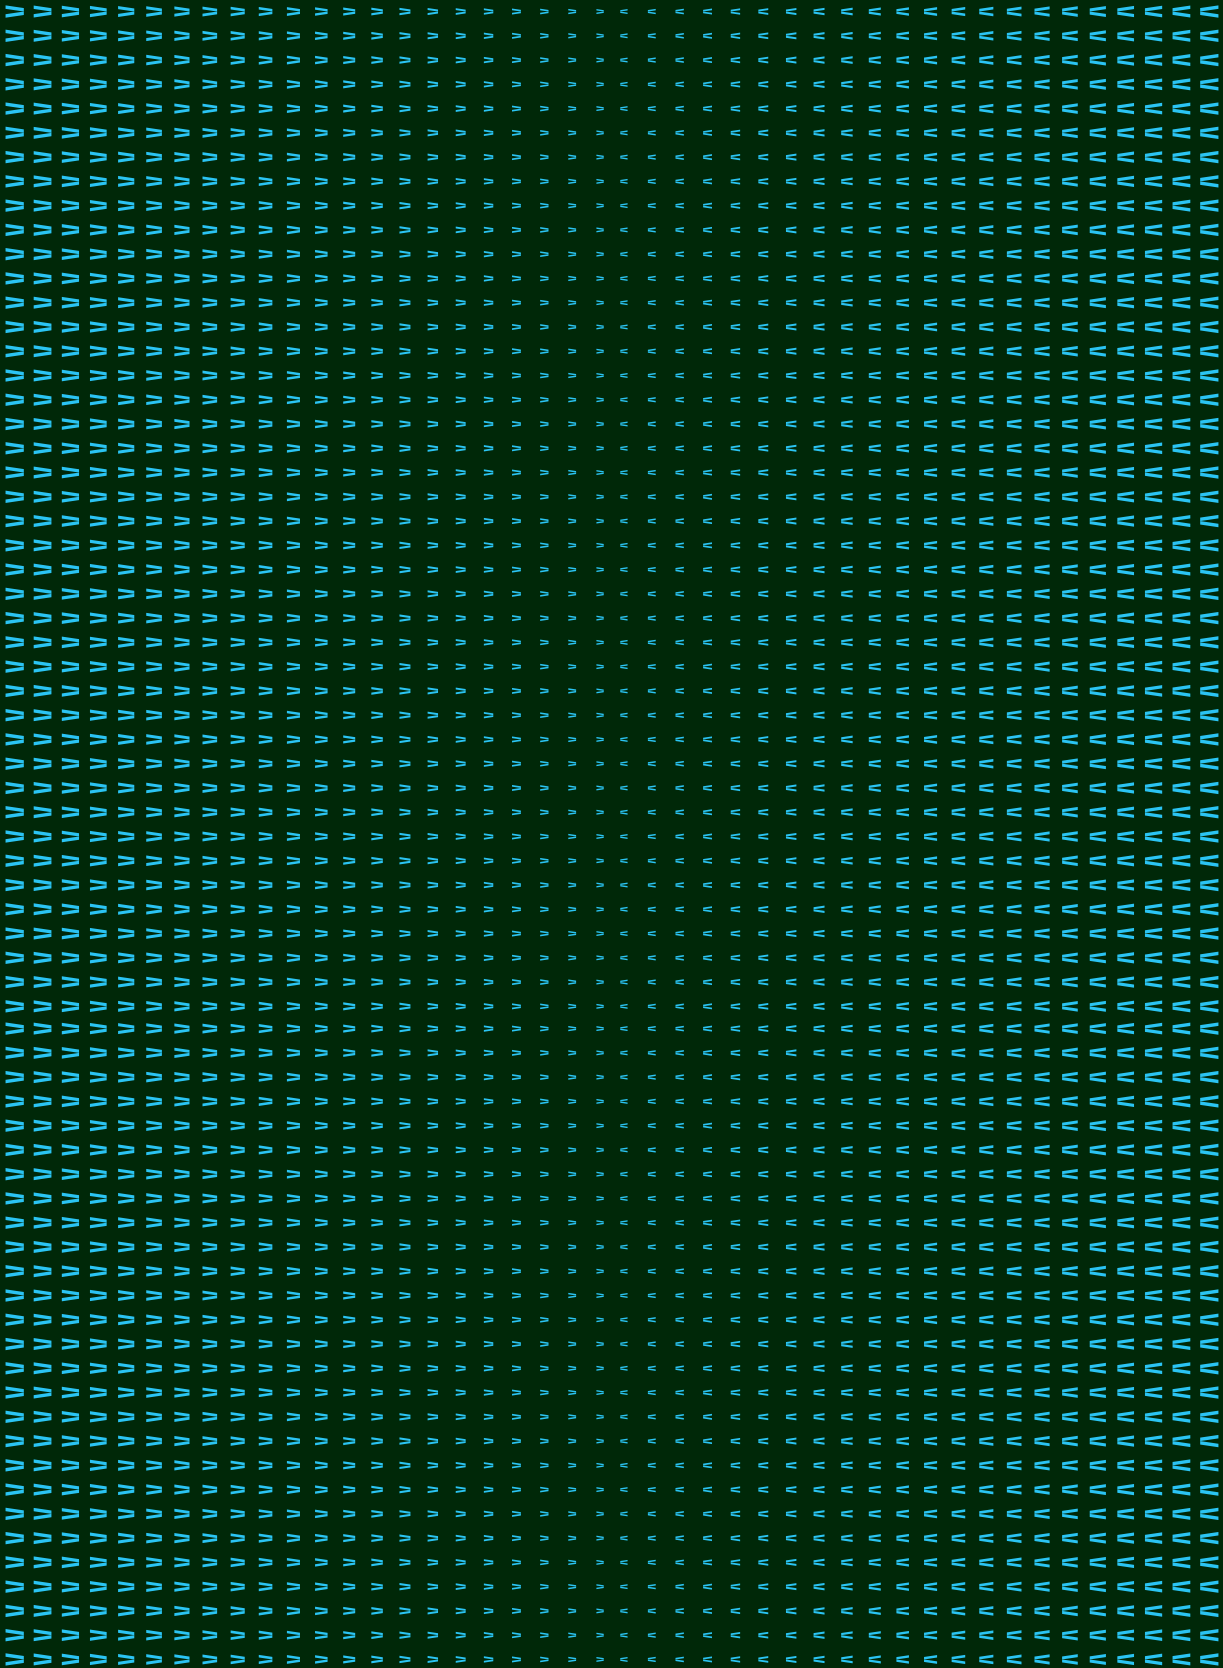

Committed to the highest security and data protection principles.

ECOVADIS

EcoVadis has ranked Salto Systems in the top 25% of companies with the best performance in terms of sustainability policies.

BSI Kitemark™

This cyber/physical security scheme forms the security element of the BSI Kitemark for IoT/Connected products.

Salto XS4 Com

Unlock the future of communication with our smart door intercom solution. Manage visitor communication and access doors and gates from anywhere, anytime.

Door Intercom

XS4 Com

The smart door intercom solution for modern buildings.

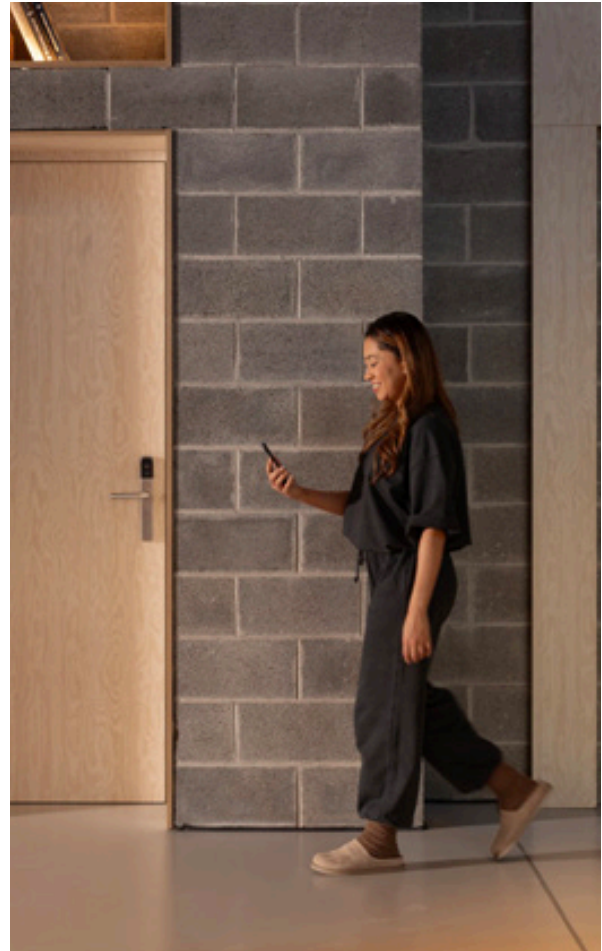

Smart door intercom and keyless access convenience at the door

Unlock the future of communication with our smart intercom solution. Manage visitor communication and access doors and gates from anywhere, anytime.

The revolutionary Salto XS4 Com transforms building access and communication by integrating a video door intercom system with the latest in access control technology.

Main Features

Say goodbye to traditional keys and outdated door intercom systems with XS4 Com.

01

Application

With our keyless door intercom entry solution, residents, authorized visitors, and guests can effortlessly access a building using just smartphones.

02

Technology

Seamless visitor access with QR code and NFC technology, allowing residents to remotely unlock doors using their phone.

03

Capability

Visitors can connect remotely with residents, facility managers, concierges, and other designated individuals at the door.

04

Performance

Secure and connect every building entry point while making access management more effortless than ever.

Revolutionize building access with a connected and convenient smart intercom solution

The Salto XS4 Com smart door intercom solution is a versatile and powerful tool that caters to the unique needs of various industries. Whether it's residential properties, commercial buildings, work spaces, healthcare facilities, hospitality, or educational institutions, this cutting-edge technology enhances security, communication, and access management.

By offering features like instant keyless entry, remote access control, and real-time voice and video communication, it streamlines operations and improves the overall experience for residents, users, and visitors alike.

Effortless installation

Designed for hassle-free installation and day-to-day operation.

Effortlessly modernize your access system with seamless, app-free entry using just a smartphone – no complex setup required.

These solutions require minimal installation effort and no complex wiring, making deployment quick and straightforward.

Visitors can easily request access by scanning a QR code or tapping an NFC plate with their smartphone, with no need for downloading an app.

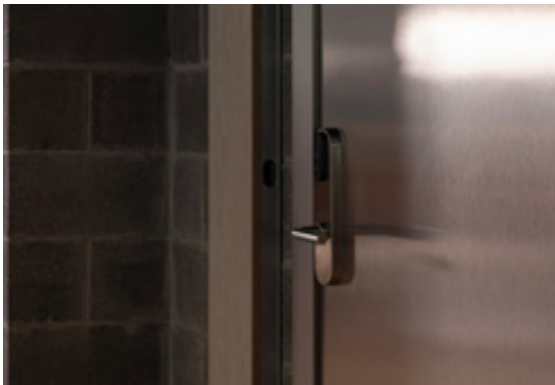

Efficient communication and convenient access

Elevate convenience and security with reliable, real-time interaction.

Enjoy effortless communication and secure, contactless access with real-time video and audio, even when you're not home.

Easily connect visitors with residents, managers, or concierges with a single touch for instant, secure interaction.

Grant access to visitors even when you're not on-site, ensuring seamless operation from anywhere.

Streamline access to any door entry

Provide a new level of accessibility, functionality, and security to easily manage access permissions.

Easily manage access and security from anywhere with a user-friendly intercom system that provides convenient smartphone-based entry.

The innovative door intercom system simplifies communication while offering quick and convenient entry.

Trusted, smart, and scalable cloud-based door intercom platform

Experience a unified door intercom and access control platform.

Enjoy a reliable, secure, and scalable access control platform that combines high-quality voice and video calls with flexible third-party integrations for seamless experience.

Designed to grow with your needs, the system integrates with third-party applications through an API-first approach, offering flexibility and customization.

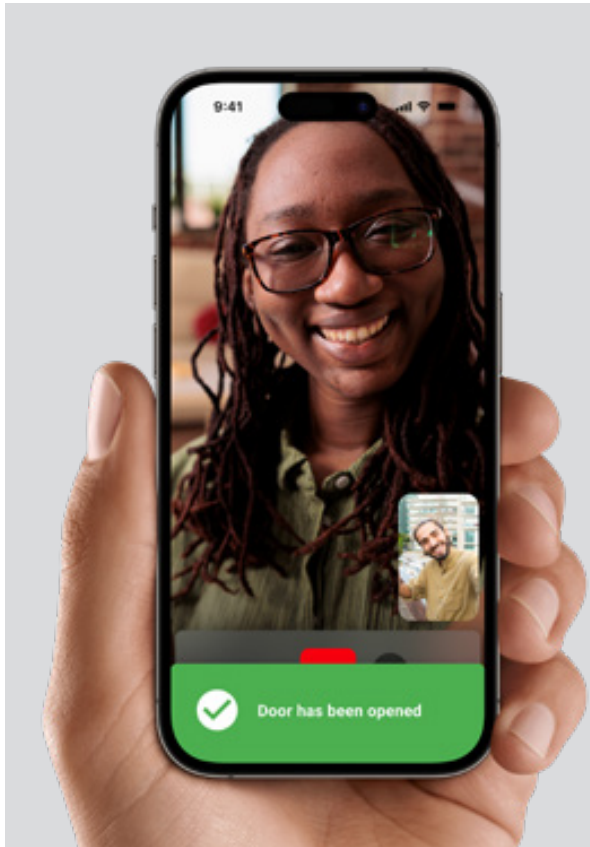

XS4 Com iGO: QR and NFC video door intercom system

Advanced video door intercom systems and hardware-free solution to open and manage doors and gates from anywhere.

Simplified entry management enhances the building entry experience with NFC and QR-based door intercom technology. It requires no hardware installations and is easy to set up.

XS4 Com iGO video door Intercom seamlessly integrates with existing Salto cloud-based access control platforms and smart locking technology.

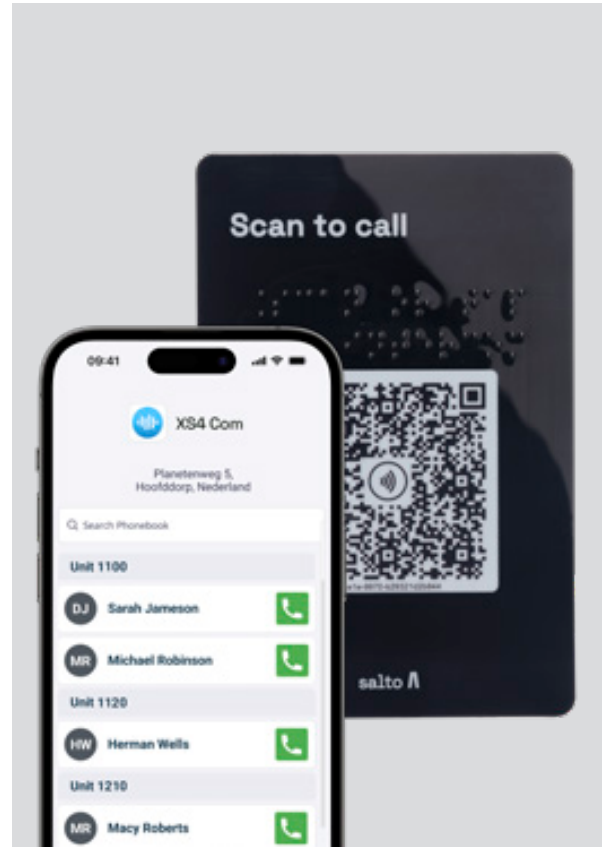

DOOR INTERCOM APP

XS4 Com

XS4 Com offers a unified video door intercom and entry system that combines complete access and intercom features within a single user interface.

Centralizing control over intercom functions and door access, XS4 Com empowers users to effortlessly manage communications and security features from anywhere. Visitor and guests can easily request access through the intuitive and customizable directory, while residents have the flexibility to remotely grant access from any location in real-time with XS4 Com App..

QR / NFC DOOR INTERCOM PLATE & STICKER

XS4 Com iGO

iGO stickers and plates utilize advanced QR code and NFC technology to facilitate secure visitor access and communication, offering a seamless intercom experience for residents and guests.

Visitors can effortlessly connect with residents by scanning or tapping the adhesive sticker, initiating a secure, real-time interaction featuring two-way audio and video verification for entry control. This innovative technology does not rely on power or internet connection, solving the issues of complexity and cost from traditional intercom systems.

How Salto XS4 Com works

XS4 Com offers flexible and scalable cloud-based door intercom platform. A mobile video and voice door intercom solution that allows visitors to access and connect with residents or businesses using NFC and QR codes.

Turning every smartphone into an Intercom:

Visitors can use the camera on their mobile phones to scan the XS4 Com plates QR code, which redirects them to a link on their web browser displaying all the contacts in the phonebook without downloading an app. By clicking on the phone icon next to the resident's name, they will initiate a call to the resident's phone, instantly providing remote access.

NFC enabled:

NFC technology enhances a smart intercom solution by allowing secure, contactless access with a simple tap of a smartphone. Its seamless integration with mobile devices offers both convenience and high security, making it ideal for modern smart buildings.

Robust security, safety and privacy.

Cloud-based, stand-alone XS4 Com gives both residents and facility managers the reassurance of robust 24/7 security along with unmatched data protection and privacy. Ensures compliance with data privacy and security legislation (GDPR-compliance), providing highest quality cloud services and automatic functional and security updates.

Geofencing technology ensures that visitors can only initiate calls when they are within a certain distance of the property, adding an extra layer of control and security.

Scan, connect, communicate and access anytime, anywhere, from any device

XS4 Com is a video door intercom solution that needs no wiring and is set to revolutionize building access and visitor communication.

Experience smarter and more secure door access with our smart intercom solution from a user-friendly web app. Effortlessly connect, communicate, unlock doors remotely, and manage users across multiple locations—all from a single platform.

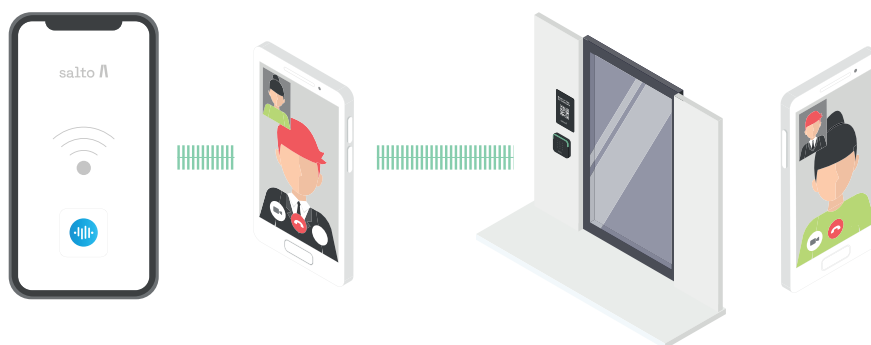

Secure and instant visitor entry:

QR code and NFC technology for easy visitor access. Unlock doors using your phone to scan or tap the QR code iGo plate / sticker.

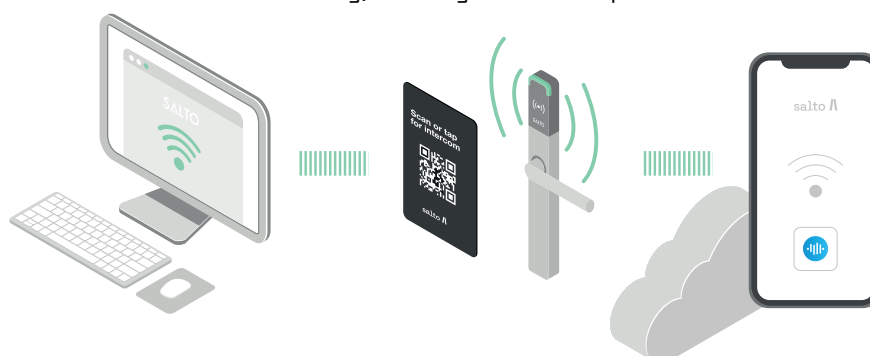

Remote video and voice calls:

Transform building access from best-in-class and high quality voice and video communications. Manage visitor calls and access needs remotely through the XS4 Com app.

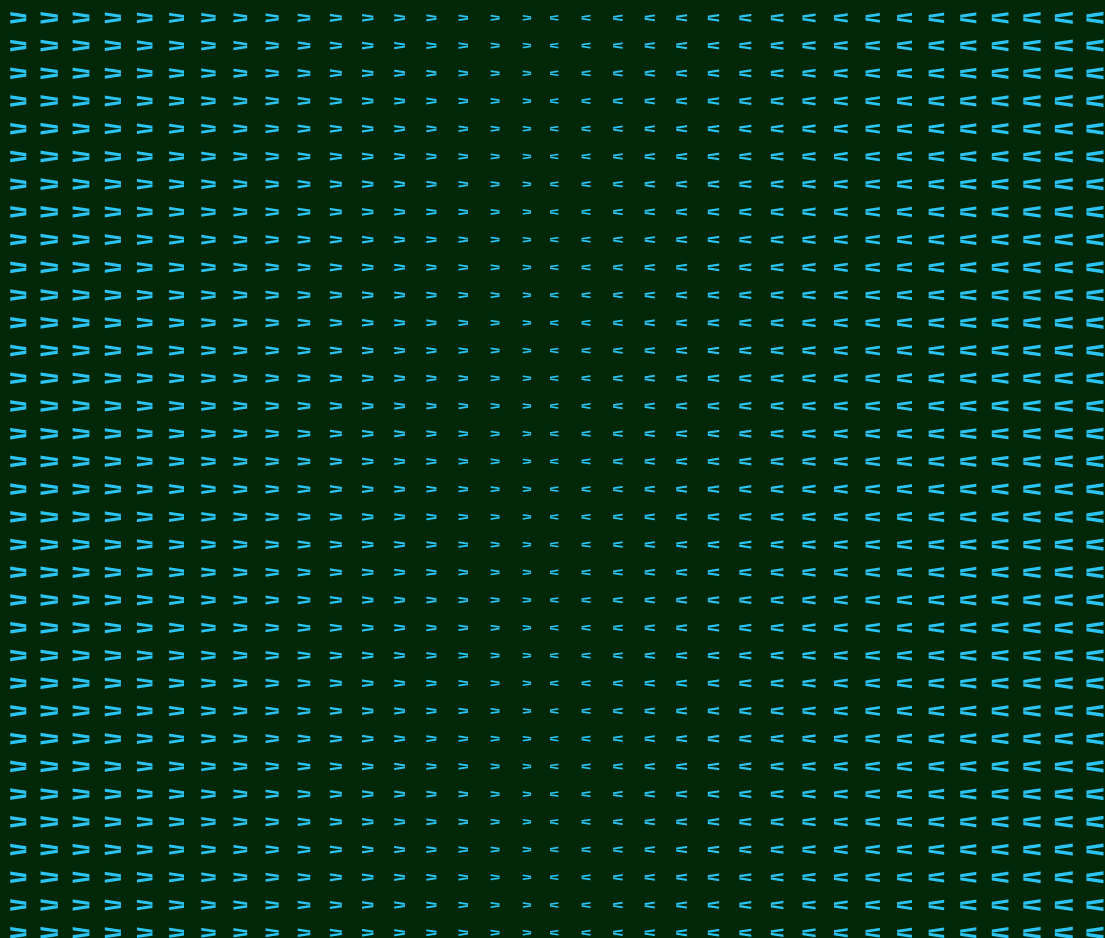

Connect and extend your access control capabilities:

XS4 Com video door intercom seamlessly integrates with your existing Salto access control platform to enhance operational efficiency, security and user experience.
