

**WHERE YOUR SPACE
HAS NO LIMITS.**

► POLAR ASSET MANAGEMENT PARTNERS, TORONTO

YOU WISH, WE WALL.

In a world looking for sustainable answers,
flexible solutions and top-notch innovations,
it's so important that your voice is heard.

At Jansen Wall Solutions, we don't simply make excellent
partition walls, above all we create places to be. Spaces full
of joy, comfort and inspiration.

How? With a strong mix of vision, R&D and sustainability.
As part of Group Jansen, a unique building company with
more than 50 years of experience, we make the world a
better place.

Let's start from your place!

TELL US WHAT YOU WANT...

**WHAT YOU
REALLY
REALLY WANT.**

MEET OUR WALLS.

Are you looking for a creative way to revitalize your office, store or hospitality business? Do you need silent spaces where you and your team can focus on getting the job done? Or, on the contrary, a space that elevates everyone's heartbeat? Are you looking for eco-friendly partitions that are quick and easy to assemble, dismantle and reassemble?

Well... we've got walls for you!

We believe a space should adapt to you, not the other way around. Our J'Clickd and J'Plus partition walls are available in numerous variants: from single, double to closed and from aluminium to wood. Thanks to their circular design, durable finish and modular construction, you effortlessly shape the working or living environment of tomorrow.

➤ HAROL, DIEST

J'CLICKD.

Smart in simplicity

Only three elements, that's all you need to assemble the J'Clickd partition wall. Less is more. This patented click system allows you to shape but also reshape your space in no time. J'Clickd combines next-level flexibility with sustainable and timeless creativity. With its clean lines, J'Clickd is the standard in aesthetic wall systems. Are you already feeling the click with this smart and circular partition wall?

Discover the different variants.

J'CLICKD.

Single glazed - up to 39 dB

J'Clickd blends effortlessly into any interior, from sleek office to creative studio, thanks to its minimalist design. Go for sophisticated wood or tough aluminium (J'Clickd Alu). Available in a range of colours, from standard black to flamingo pink or metallic gold. Want to make a sustainable statement? Choose our bamboo version: it grows up to 30 times faster than traditional wood. Great for your space and the planet.

J'CLICKD².

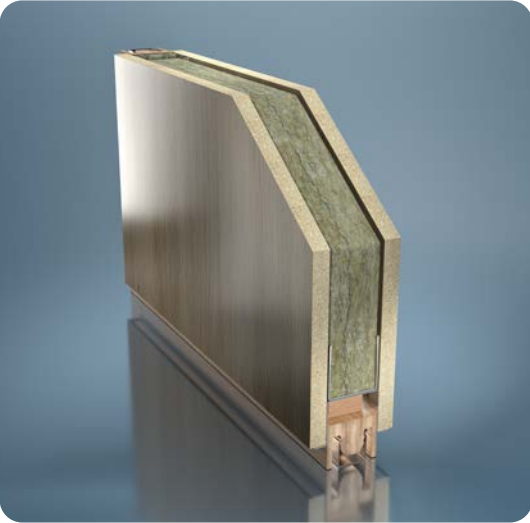

Double glazed - up to 50 dB

J'Clickd² combines the timeless design of the standard J'Clickd with double glazing for a strong acoustic performance of up to 50 dB. Perfect for spaces where tranquillity, focus and productivity are key, without compromising on style. Thanks to the smart click system, you assemble and disassemble this partition effortlessly. Smart flexibility, zero hassle.

J'CLICKD SOLID.

Double glazed - up to 50 dB

Looking for extra privacy or a sleek, closed look? J'Clickd or J'Clickd² Solid offers the solution. Combine effortlessly with our single or double glazed walls thanks to the smart and unique click system. Everything fits seamlessly, creating a cohesive and flexible finish for your space.

J'CLICKD² SOLID.

THE WRITING ON THE WALL.

“ We are a company committed to sustainable and future-oriented real estate. Choosing J'Clickd in our own offices is therefore a logical choice for us! The circular character, the natural look, the ease of assembly and disassembly, the perfect acoustics ... are all pros that convince us completely. ”

Trees Verhoogen
Project Manager – Nextensa, Brussels

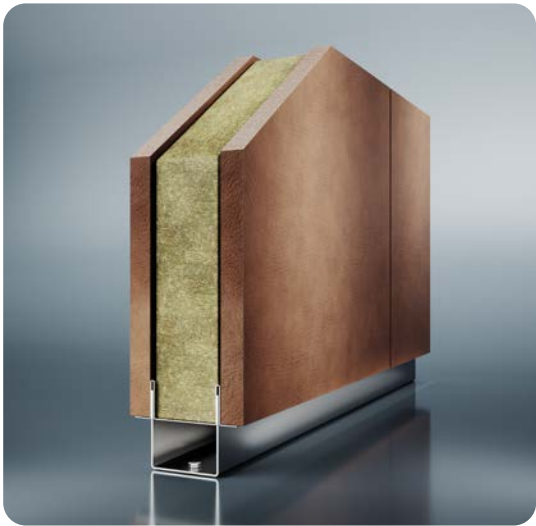

J'PLUS.

Endless possibilities

The J'Plus is much more than a double partition. It is a powerful base with a steel structure that opens up a world of finishing possibilities. Go for a panoramic view or a sleek, flush finish. Choose from glass, wood, steel, whiteboard, or other exclusive materials. The options are endless! Thanks to its modular construction, strong acoustic performance, and circular design, J'Plus is the sustainable wall solution for those who seek both freedom and sophistication.

Discover the different variants.

J'PLUS.

Solid - up to 56 dB

This multifunctional, solid wall offers superior sound insulation up to 56 dB and endless finishing options. For those who want comfort and individual character. From wood, leather, felt and fabric to brass, whiteboard or unique laser engraving... you wish, we wall. And with full compatibility for our accessory range, it's the perfect foundation to add that extra spice to your space.

J'PLUS GLASS.

Double glazed - up to 49 dB

Want to combine the closed character of a J'Plus wall with a panoramic view in glass? Then J'Plus Glass is your perfect match. It brings light and a sense of space into your environment, without compromising on style.

J'PLUS FRAMED.

Double glazed with vertical posts - up to 48 dB

Prefer a more robust, architectural look? Then J'Plus Framed is your ideal choice. Its vertical posts elevate modularity to the next level: combine double glazing at the bottom with a closed upper section, or vice versa. You define the layout. Want an extra sleek finish? Choose the optional flush design for a perfectly seamless result.

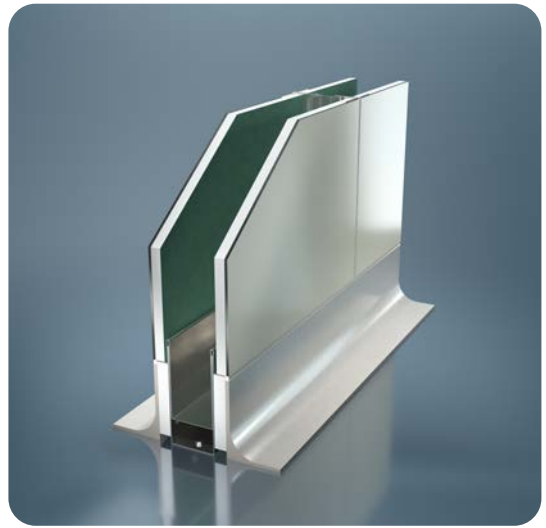

➤ MINI & BMW, LUXEMBOURG

J'CLEAN.

Cleanroom wall – up to 56 dB

In laboratories, hospitals and cleanrooms, a modular wall solution is the key to efficiently dividing and (re)configuring spaces. J'Clean is specifically designed to meet the highest hygiene standards and strictest regulations required in these demanding environments. Built on the trusted J'Plus system, it features an antibacterial coating and a modular structure that allows for easy adaptation or expansion. An added advantage? J'Clean installs up to three times faster than a traditional wall.

J'Plus on one side and J'Clean on the other? Absolutely, this combination is perfectly feasible.

➤ POLAR ASSET MANAGEMENT PARTNERS, TORONTO

CHOOSE YOUR MATCH.

	Wall	Acoustics	Modularity	Sustainability	Curved options
J’Clickd	Single glazed	Up to 39dB	✓✓✓	✓✓✓✓	✓
J’Clickd ²	Double glazed	Up to 50dB	✓✓✓	✓✓✓✓	✓
J’Clickd Solid	Solid	Up to 50dB	✓✓✓	✓✓✓✓	✓
J’Clickd ² Solid	Solid	Up to 50dB	✓✓✓	✓✓✓✓	✓
J’Plus	Solid	Up to 56dB	✓✓✓✓	✓✓✓	
J’Plus Glass	Double glazed	Up to 49dB	✓✓✓	✓✓✓	
J’Plus Framed	Double glazed	Up to 48dB	✓✓✓✓	✓✓✓	

*Modularity: flexibility to customise and integrate different modules.
*Sustainability: based on material use, reusability and the ability to easily separate the materials.

THE WRITING ON THE WALL.

“During the Virtuology project, as an interior architect, I felt an unstoppable design itch. I didn't find a ready-made wall solution or partner willing to think along with me, until I sat down with Jansen Wall Solutions. Their creative team provided the technical solution needed to execute my design and dared to follow through with it.”

Gregory D'hallewin
Interior architect – Colliers Belgium

FEED YOUR FOCUS AND HAPPINESS.

Do you need some peace and quiet to finish a difficult project?
Or perhaps you're seeking respite from the clamor of an open
office environment? No need to ask twice.

Our **office booths** are highly versatile:

- ▶ These private enclosures provide a sanctuary for
focused solo work and confidential tasks, giving
employees a dedicated space free from distractions.
- ▶ Additionally, our booths meet your collaborative needs,
functioning as small meeting spaces or hubs for
one-on-one discussions.
- ▶ Beyond their practical utility, these private spaces
contribute to employee well-being by offering them a break
from the constant activity of an open office, fostering a
healthier and more balanced work atmosphere.

TAKE IT EAZZY.

Looking to maintain a connection with others in a room while enjoying a
touch of privacy?

Look no further, **J'Eazz** has the ideal solution for you. This swift and
adaptable wall construction not only offers a gentle partition but also
effortlessly delineates spaces with distinct functions.

- ▶ Fast & simple
- ▶ Modular
- ▶ Stable
- ▶ Multifunctional
- ▶ Quick assembly and disassembly by yourself
- ▶ Different materials and finishes

PIMP YOUR WALL.

Our R&D & design departments have developed some **exciting features** in sync with all your needs. You can choose from various options, including different kinds of shades and blinds, flush doors and wall coverings such as wood, leather, glass, felt, whiteboard and more.

Additionally, you can even integrate various technologies (ventilation, lighting and so on) or choose optimized acoustics.

Or what do you think about our **LUBDUB accessories?** They will give your setting that extra spice and/or functionality.

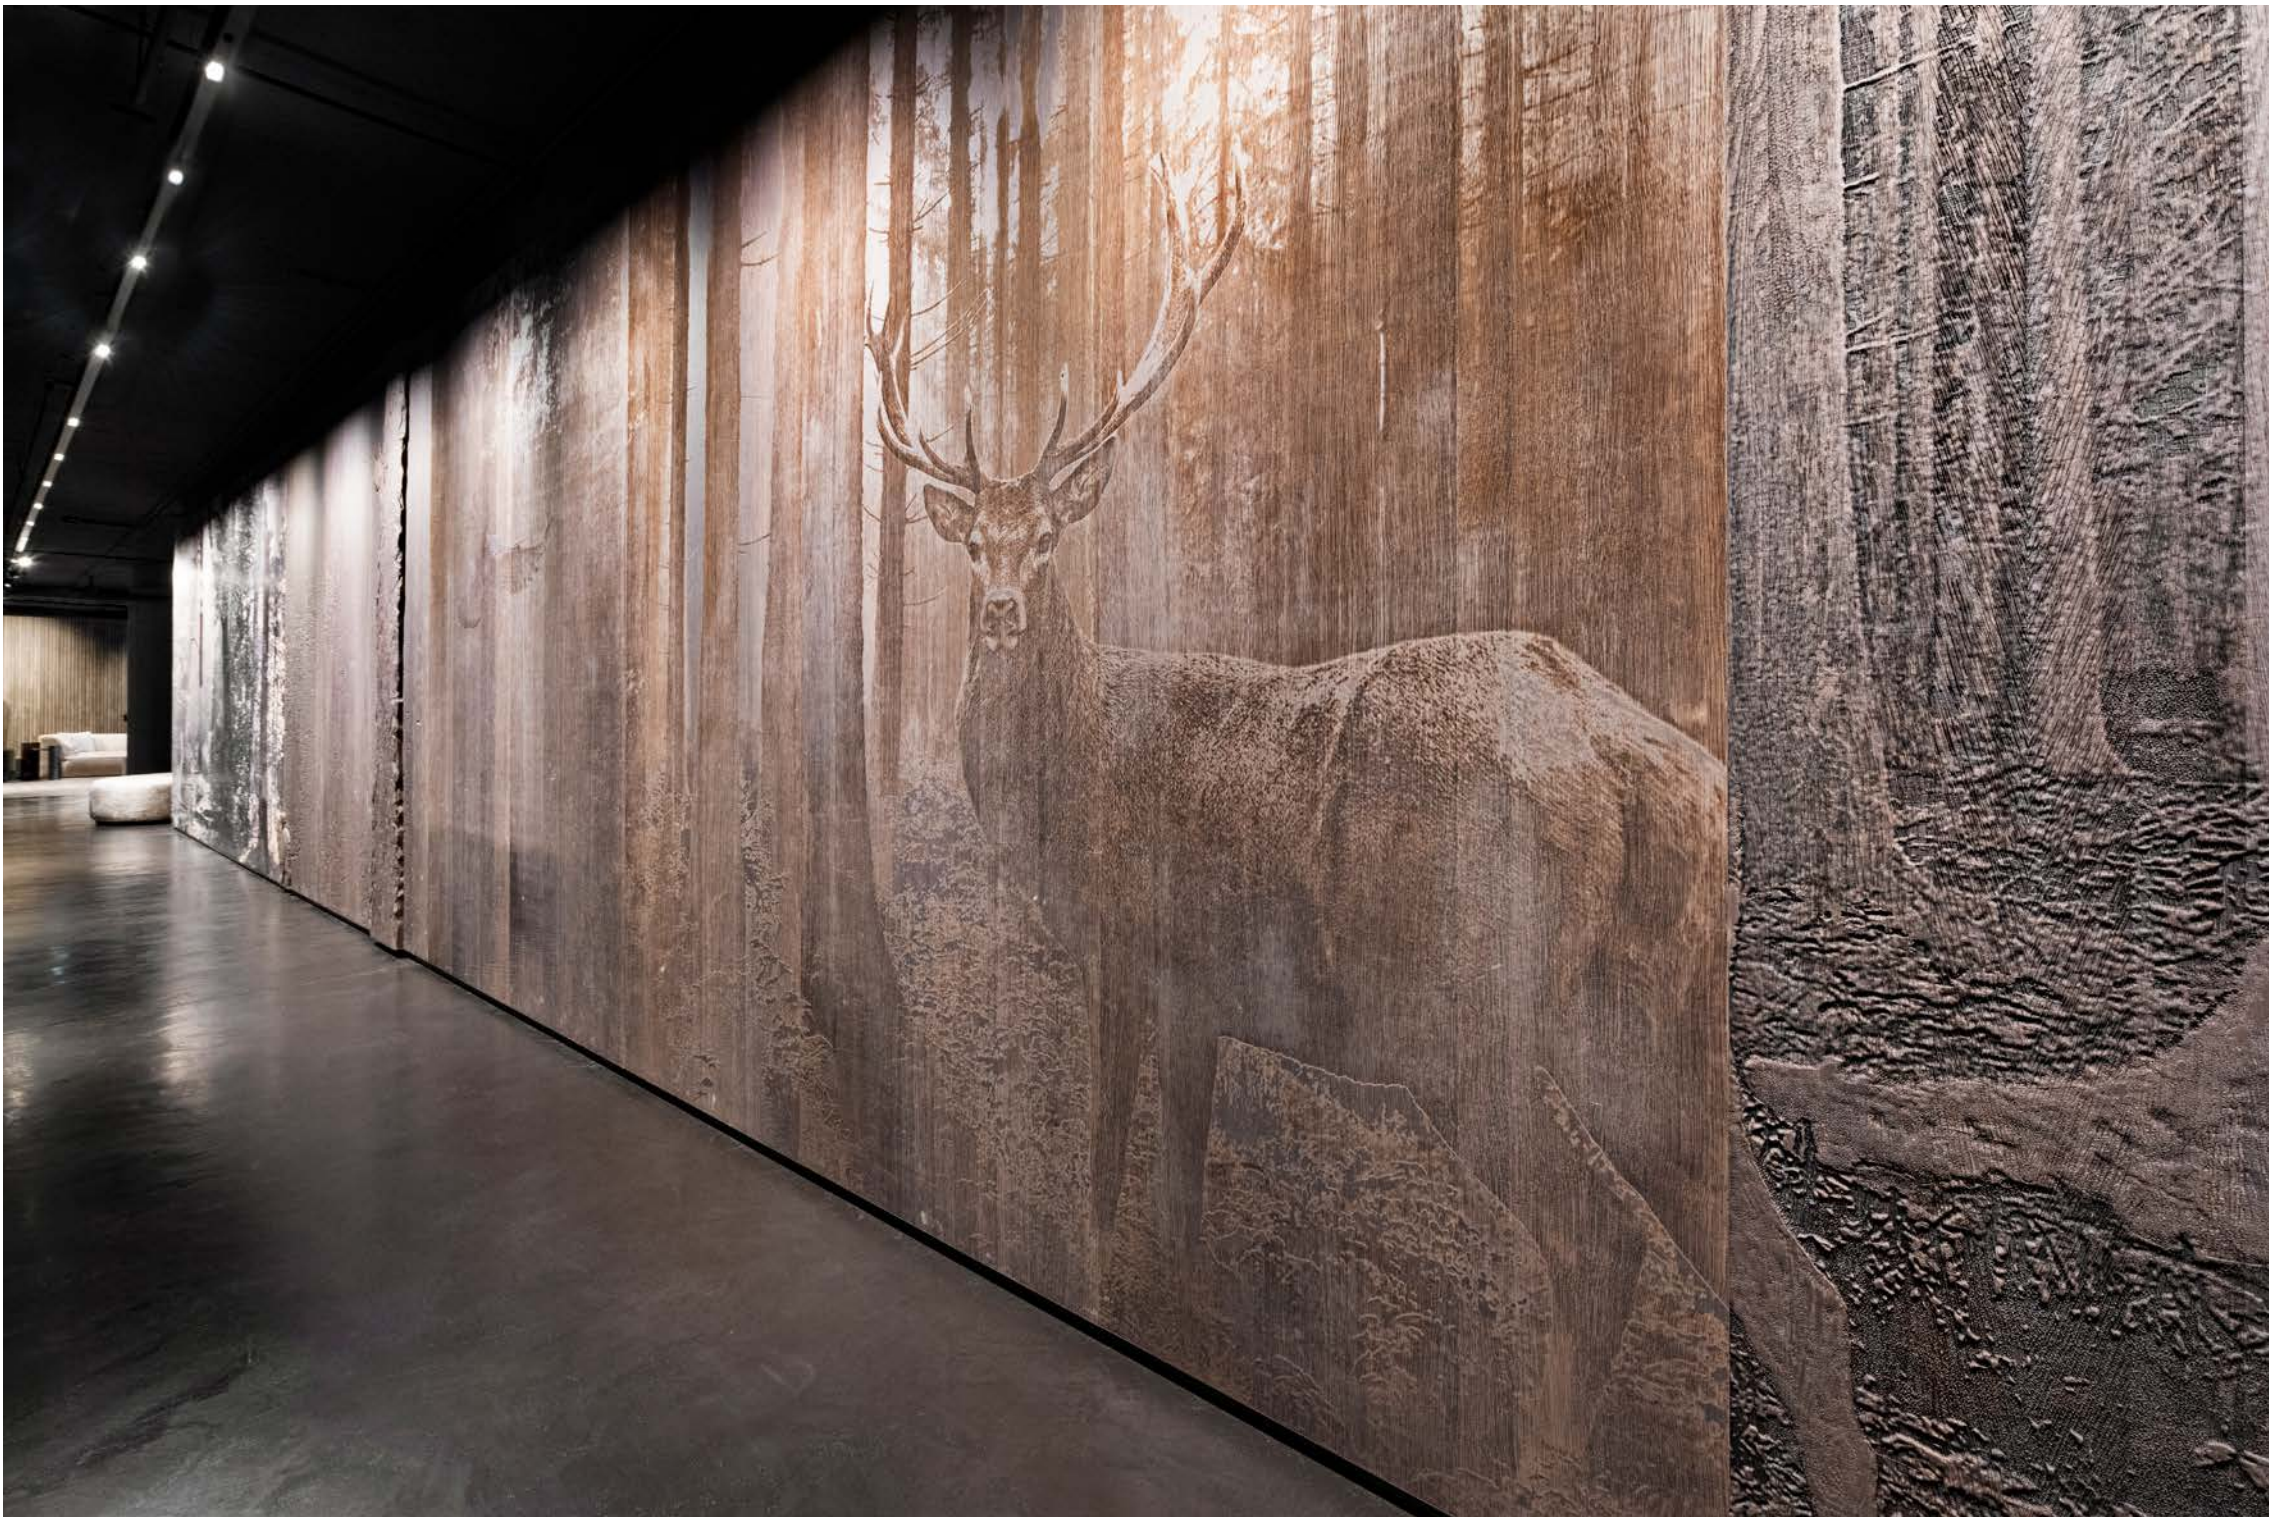

DESIGN YOUR WALL.

Customized finish

Looking to make your office, reception hall or boardroom even more unique and exclusive?

We can customize our walls and bring any architectural concept to life. From wood carving, leather engraving to surfaces in mesh, terracotta or ceramic? **Dream as big and bold as you want.** Hop on and join us for a creative ride.

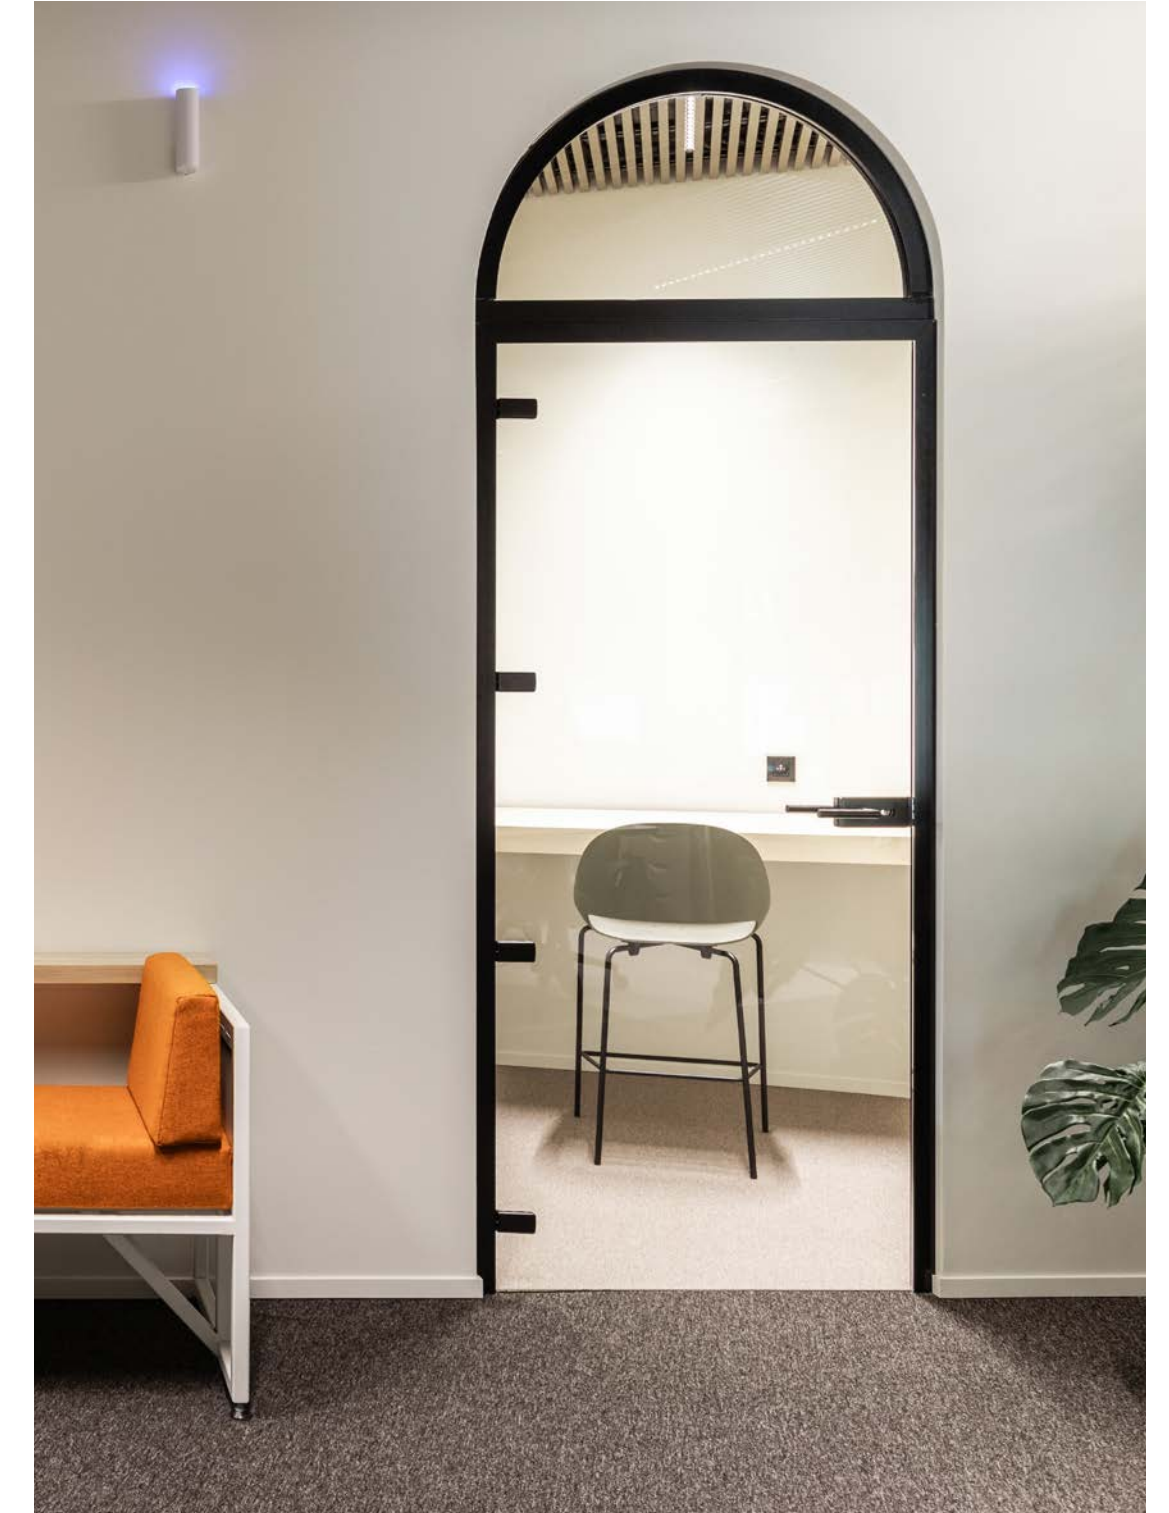

MEET OUR DOORS.

Ready to slide or swing? Each of our walls comes with the most amazing doors. Choose the door that best suits your space.

No matter which door you select, you can count on:

- Great acoustics
- Stunning aesthetics
- Several possibilities that match your needs:
 - Framed or frameless
 - Single glazed, double glazed or solid version
 - Flush: one or two sided

WHAT WE STAND FOR.

Masters in production

We make a range of **exquisite products in-house**. In a connected playing field, all our factories are BIM-driven. Within our next-level production environment, we even process waste into innovative new products.

Creativity rules

We breathe innovation! We look for new ideas inside as well as outside the company. Can we make it better, smarter, more eye-catching? **Our own R&D, design and engineering departments** are ready to take on your most dazzling wishes.

An eye for excellence

From our knowledge and competence as a construction group, we create modular and sustainable products which will elevate your space to a next-level experience. In doing so, we aim for above-market standards. In addition, we only choose **certified partners**. The highest quality in both work and products, that is just pure logic.

The need for speed

We relentlessly pursue new solutions. In other words, if our technology is going to be rendered obsolete, we'd prefer to do it ourselves. **We are quick to capitalize on new ideas.**

OUR STORY.

Group Jansen is a unique renovation and construction company specialized in interior finishing and techniques. A challenger that dares to think outside the box. As a construction group, we challenge clients and ourselves with innovative, in-house products and atypical solutions.

Our family tradition, our drive for innovation and having a woman as our “front man” make Group Jansen something exceptional in the construction industry. We work hard (and always from the heart) with plaster, steel and much more.

But, above all, we work with and for people.

DISCOVER OUR A TO Z APPROACH.

With more than 50 years of experience and more than 750 of its own professionals, Group Jansen is an experienced contractor. But what makes us so different? We believe in a sustainable future and build it with modular and integrated solutions. As a true family business, we go all the way for a 360° approach.

J'Sky: modular climate ceilings

From office, hotel, hospital to restaurant and other building projects: J'Sky provides cooling, heating, lighting, ventilation and acoustics. These innovative & energy-efficient climate ceilings turn your space into a place to be, brimming with comfort! Even integration of techniques such as smoke detection, audio, odour control and motion and daylight sensors is possible.

AUTOMATED PRODUCTION.

BIM

Jansen Wall Solutions is a trendsetter in **fully automated production**, all thanks to BIM.

- ▶ Our walls are 3D-modelled and visualized with renders. These visuals give you a better understanding of your project and our splendid walls in it.
- ▶ Our BIM experts draw the plans of execution in Revit.
- ▶ Next we issue production orders to the machinery. Our factory is automated and connected to our modelling software.
- ▶ Procurement and logistics (even our automated warehouse) are integrated and based on the BOM (bill of materials).

Our approach is unique across the market. We place BIM at the heart of our sales and production processes, connecting two areas that are all too often disconnected. We believe this fully integrated approach makes Jansen Wall Solutions a true disruptor in a new digital age.

With our product configurator you can now extend your Revit BIM suite with our Jansen products and design your projects at the click of a button.

RESEARCH & DEVELOPMENT.

We innovate your place

Our R&D team are true product enthusiasts who thrive on flexibility and sustainability.

As a creative crew, we proactively look for trends and new developments in the market. Thanks to our unique mindset and keeping our finger on the pulse of today's design, we create state-of-the-art solutions (both products and processes) that score particularly high in terms of sustainability, circularity and aesthetics, and we actively strive to exceed market requirements (installation, load, aging and acoustic tests included).

Some examples of recent product developments?
How about J'Clickd and J'Plus?

“ Like knights, we are always searching for the Holy Grail: those perfect solutions to everyday issues and challenges. ”

Marcel de Graaf
R&D Manager

SUSTAINABILITY DRIVE.

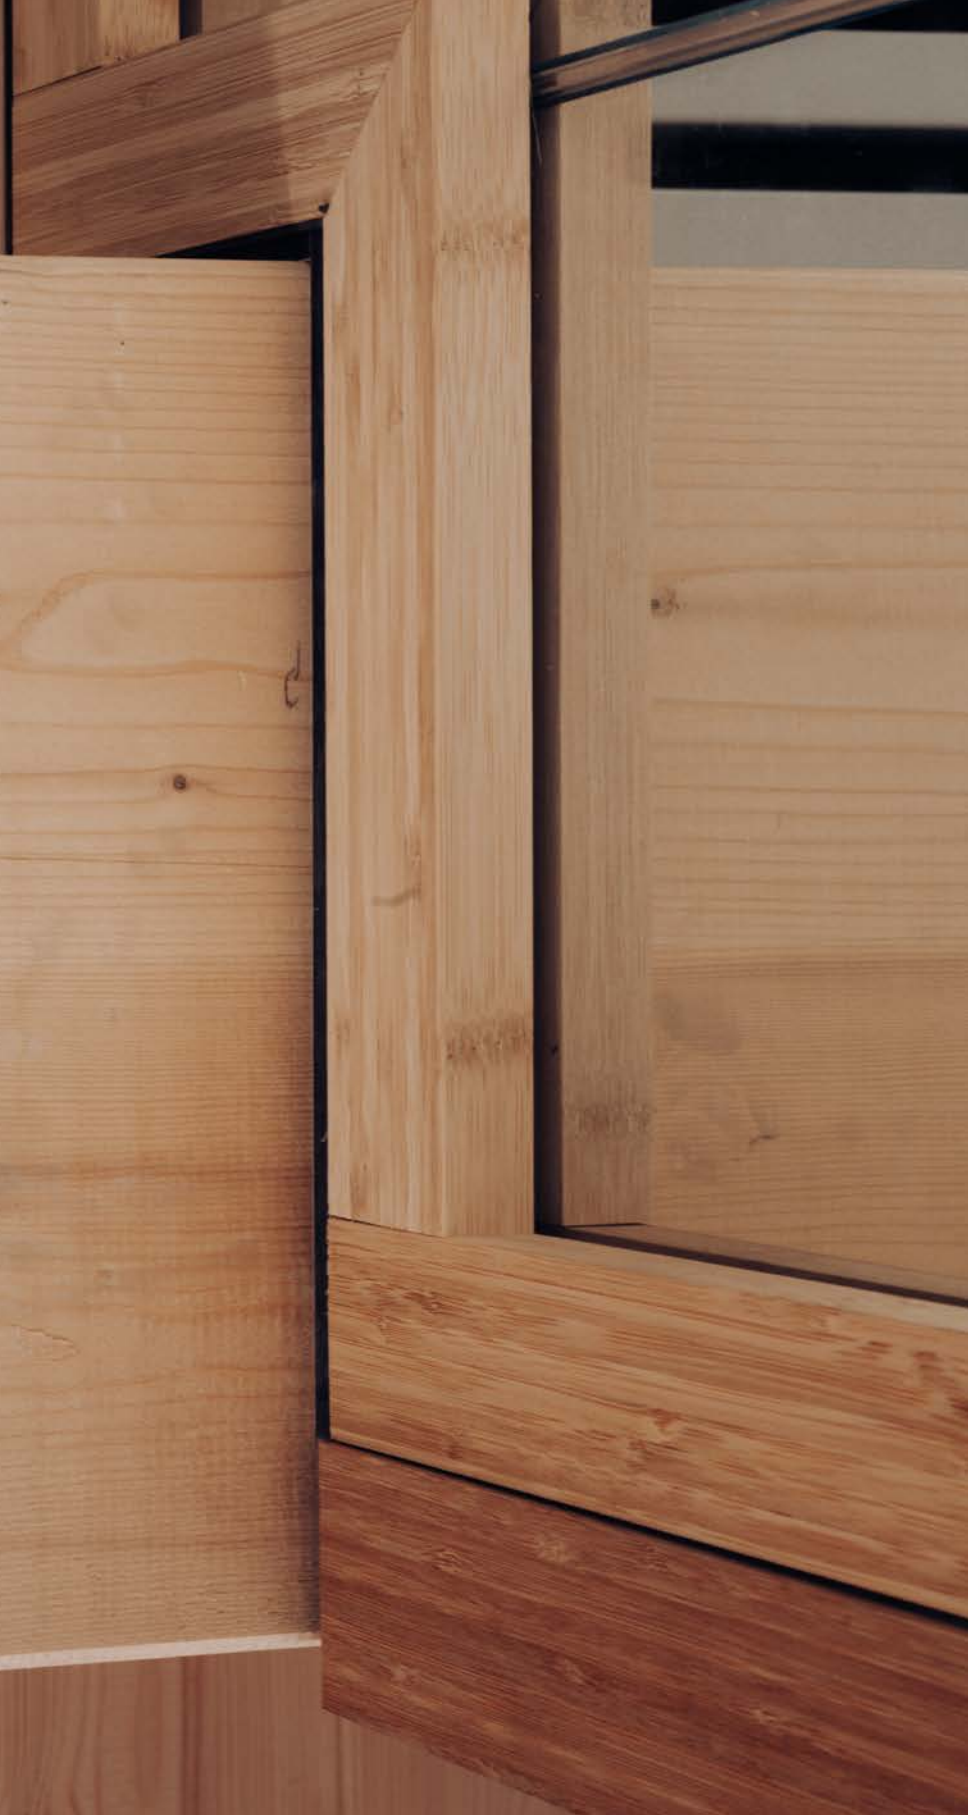

Sustainable by nature and by design

At Jansen Wall Solutions, we think circularly. We choose sustainable materials with a long lifespan, produced locally whenever possible. Our system walls are also designed in such a way that all the materials can be easily separated from each other. That means: easy to (dis)assemble, reusable and recyclable.

In this way, we build not only spaces, but also a sustainable future.

Always one sustainable step ahead with Group Jansen

As part of Group Jansen we take a leading role in ESG. In-depth, transparent and effective. In doing so, we question our products and way of working on a daily basis. For example, we minimize waste and maximize recycling in everything we do and develop. We even make circular ceramic products from our own drywall waste.

SOCIAL RESPONSIBILITY.

Employee well-being

- Diversity, equity & inclusion
- Health & workplace safety
 - Commitment – prevention – certifications (VCA**, EN 14175 & NPR 4500)
 - Quality: using the ISO quality framework to detect and manage potential risks
- Development (Jansen Star Academy)

Ethical business practices

- Fair labor practices: inclusive hiring, equal opportunities & supportive environment
- Data privacy & handling
- Ethical & responsible sourcing
- Diverse suppliers
- Information transparency & accountability
- Care, respect & honest communication

Community engagement

- Partnerships with local organizations
- Employee involvement in volunteer programs
- Educational outreach
- Community events & sponsorships
