

Smart Access Solutions

Streamline security and your operations with industry-leading smart access solutions and technology.

SALTO WECOSYSTEM

Empowering smarter access

SALTO WECOSYSTEM is more than a group of companies and individuals. We're a community born out of a common goal: empowering access, in every sense - access to places, experiences and opportunities.

Our expert global teams collaborate closely, driven by a dynamic spirit and a shared passion that mean every part of our WECOSYSTEM is fully connected.

Each of our companies embrace the latest technologies and prioritises the open exchange of ideas to unlock new ways of working - So we can keep pushing, keep innovating and keep delivering solutions that enable people to access more together.

We believe that our industry still has a long way to go, and we want to have an active role in the exciting journey ahead.

Smart Access & Identity Management Solutions

About Salto

Salto is a leading global access solutions provider, part of the SALTO WECOSYSTEM.

The industry-leading smart access provider.

At Salto, we pioneer facility access, identity management and electronic locking technology that ensures seamless, reliable and secure experiences.

Through close customer relationships and innovative solutions, our global team of experts create timeless and meaningful products that positively impact people and planet.

About Salto

Who we are

At Salto, we pioneer facility access, identity management and electronic locking technology that ensures seamless, reliable and secure experiences.

For more than 25 years Salto has been synonymous with innovative solutions, including stand-alone, cloud-based, and mobile applications, that set new standards in security, manageability, flexibility, and design that bring real-world benefits to virtually any door and building type across a broad range of industries and facilities applications.

Smart access reimagined

Our goal is to develop products and technologies adapted to the global needs of different industries through reliable solutions that are easy to install, use, and maintain.

Streamline security and your operations with industry-leading smart access solutions and elevate user experience by eliminating the reliance on traditional mechanical keys.

Salto aims to have a leading role in the unstoppable process of the massive replacement of mechanical keys with smart digital keys.

Our electronic locking technology and smart access ecosystem set new standards in security, manageability, flexibility, and design that bring real world benefits to virtually any type of access point.

Eliminate mechanical keys.

Meet users, staff, and visitor security needs across the buildings with a keyless experience.

Enhanced security operations.

Deploy smart and secure 24/7 facility access management that includes mobile access for ease of use and user convenience.

Unified smart access ecosystem that does more.

Brings together access control, communications, and advanced ID management technology for a proactive approach to safety and security.

Unique designs for easy retrofit, applicable to existing standard door preparation, making it simple and fast.

Access and convenience, no compromise

Control access to any door, lockers, elevators, turnstiles and perimeter access.

Building secure and reliable integrations together.

Integrations with Technology Partners to provide fully integrated smart access solutions and create custom functionalities.

Smart access convenience for your unique business needs

At our core, we are a customer-centric organization that prioritizes fitting our solutions to any business and industry needs.

Every business is unique, Salto's best-in-class smart access control technology simplifies access management in this complex environments by offering industry-leading smart access and ID management solutions ready for any industry.

WE ARE INDUSTRY-LEADING INNOVATORS

Salto has consolidated new industries, diversifying its client portfolio, working successfully with leading companies.

We offer a unified smart access solutions ecosystem for every industry, becoming an industry leading brand over traditional access control solutions, accelerating digital access transformation projects.

Commitment to quality and security

Regulatory compliance is essential in building trust and confidence in the effectiveness of our products and smart access technologies.

Salto and our products carry a number of third-party verified certifications which reflect our commitment to delivering on our promises.

CERTIFICATIONS

Salto is ISO 9001, ISO 14001, and ISO 27001 certified. These important certifications validate the quality of our products, ensuring consistent building quality and that environmental norms.

SECURITY

Salto is seriously committed to protecting the privacy of all its customers and users, as well as the safety and security of our products and services. That's why security is embedded in everything we do.

QUALITY

We believe that providing the best smart access solutions for our customers begins by ensuring that they are the best quality. That is why through every step of the way – design, manufacturing, delivery, and product lifecycle – we consider the quality of every device and its components.

Solutions we provide

Streamline security and your operations with industry-leading smart access solutions and elevate the user experience by eliminating the reliance on traditional mechanical keys.

All-in-one ecosystem for all access management needs.

A powerful, flexible platform and product portfolio for all businesses across industries that make life easier and safer by providing smart and secure access to the buildings and spaces we use daily.

DELIVERING SOLUTIONS THAT TRANSFORM OPERATIONS AND END-USER EXPERIENCES.

Salto smart access solutions are in use worldwide in a never-ending range of challenging and unique applications and facilities.

Access Control

Eliminate mechanical keys, lock replacements, and complicated system configurations. Gone are the days of the physical key.

Salto offers a range of access control system architecture and infrastructure options. From on-premises hosted infrastructure to hosted services, as well as cutting-edge all-in-one cloud-based access control (ACaaS) solutions.

On-Premise Network

Our on-premise access control solution leverages the advanced SVN Data-on-Card technology, providing secure, networked access management across your facilities with a fully wire-free infrastructure.

Cloud Applications

Industry leading cloud-based access control applications for flexible, secure remote access management anytime, anywhere, eliminating the need for on-site infrastructure.

Face Recognition

Requiring only the user's face as an access credential, we bridge access control and face recognition technology.

Door Intercom

Transforms building access and communication by integrating a video door intercom system with the latest in access control technology.

ID Visitor Management

Effortlessly automate and manage physical access identities for your workforce, contractors, and visitors.

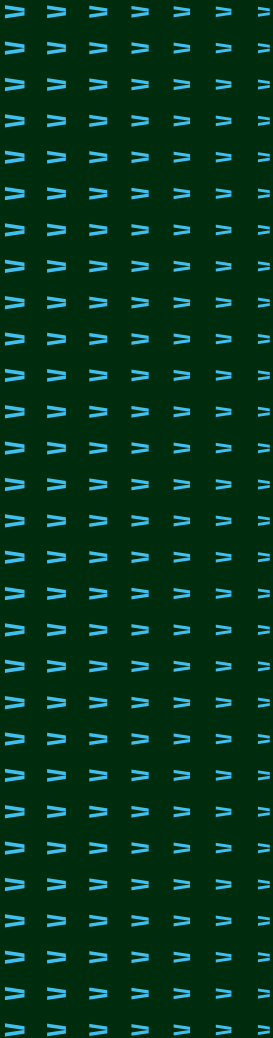

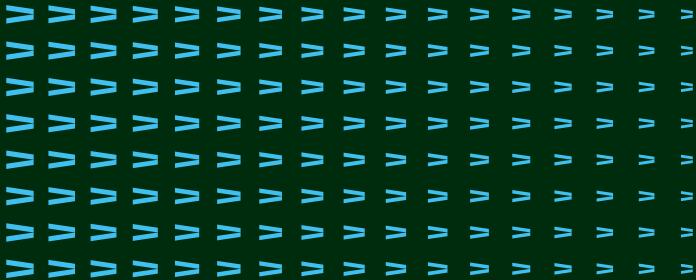

Smart Locker Systems

We offer industry-leading hardware powered by state-of-the-art Gantner technology, designed to meet the evolving storage needs of modern buildings.

Integrations

We're focused on driving high-value integrations which translate into improved smart access solutions for customers and overall operation enhancements for building management.

Solutions we provide.

Access Control

Powerful access control solutions to secure every building.

Upgrade your security and operations with next generation access control solutions.

Our access control solutions are designed to secure areas ranging from single doors, to locker locks and perimeter access, and even global projects, all complete with best-in-class features and benefits.

Core Platforms

Space

The pioneering, SVN data-on-card, smart access solution.

KS

Cloud-based smart access control solution with best-in-class, real-time capabilities.

Homelok

All-in-one cloud-based smart access solution for residential living.

SVN data-on-card, smart access solution.

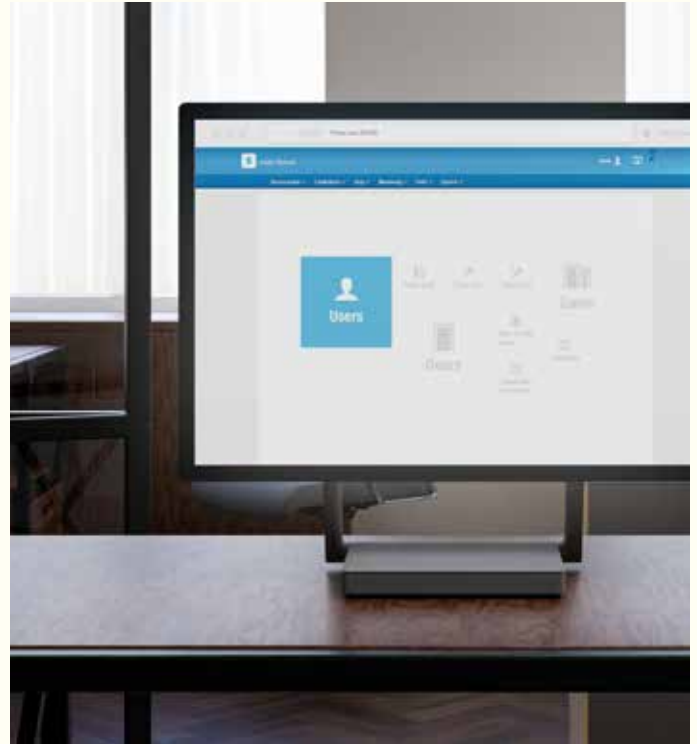

Space

Seamlessly connect users, doors, and spaces within your security operations – allowing access wherever, whenever in any building.

Wire-free, SVN data-on-card access control solution.

Elevate your smart access experience with our integrated access control solution. Salto Space revolutionizes building security and operations through keyless convenience, enabling digitalization for buildings across industries.

Do more with a pioneering, virtually networked, data-on-card based locking system. Experience unified, scalable security combined with integration support and limitless features to manage building operations.

Main Features

A scalable, web-based access management platform that is quickly deployable and easy to use, offering keyless and mobile access features for seamless security management.

01

SVN networked data-on-card Solution

Seamlessly integrate non-connected locks to system operations, creating a wire-free environment that enhances 24/7 security and convenience.

02

Say goodbye to mechanical keys

Leverage the latest smart credentials and mobile technology for reliable, keyless experiences and access control management.

03

Security

Enhance security at every level with leading smart access technology designed for ultimate flexibility and control.

04

Flexible and scalable

Simplify the installation and management of your access control with our easy-to-use, cost effective, all-in-one solution that can be integrated with other security systems.

05

Trusted access

Our secure and reliable access control platform provides an enterprise-grade security.

Cloud-based access control solution.

KS

The scalable and flexible cloud-based access control solution with best-in-class capabilities in real time.

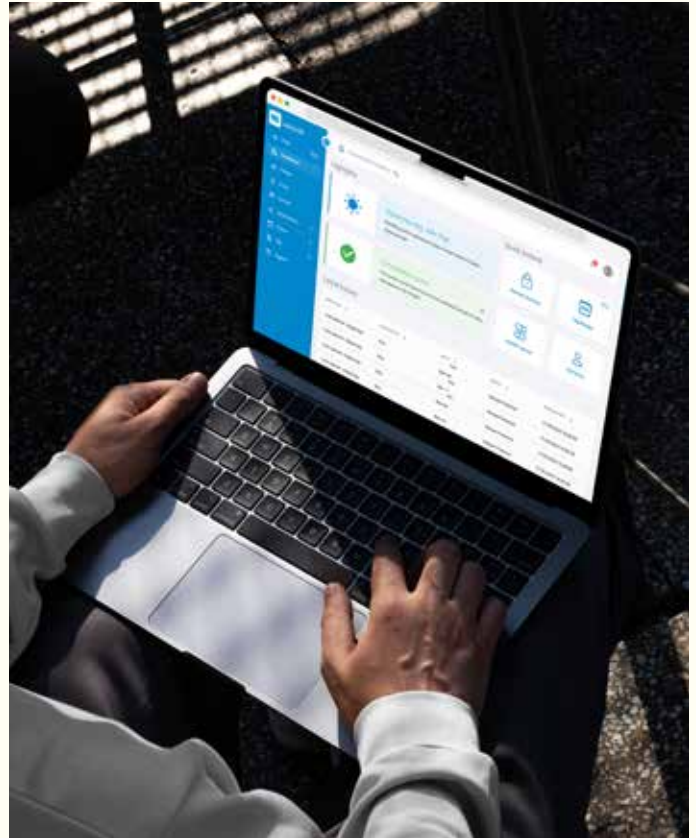

The industry-leading cloud-based access control solution.

Enjoy complete control of all functions and features from the web app or use the mobile app to track events, unlock doors remotely, or block users on the go. Manage all doors, users, and locations in real time, wherever you are.

Salto KS offers multiple ways of opening doors, including digital keys. It supports a wide range of keyless access methods to improve user experience and the security of any type of building. It also delivers advanced security features on a fully remote and wireless cloud-based access management platform.

Main Features

Take advantage of smart and secure cloud infrastructure, wireless, and online. The Salto KS access control solution provides an intuitive user experience with easy third-party app integrations.

01

Always up-to-date

Enjoy complete control from the web app, and monitor every access point remotely from anywhere, at any time, and on any device, for even greater flexibility.

02

Gain activity insights

With Salto KS, you can always track who goes where and when.

03

Manage access easily and securely

Collect all user access rights on a single, smart RFID tag, send and receive digital keys, or unlock doors remotely – via PIN code, smart key tag, or even your smartphone.

04

Streamline operations

Define who can enter which door(s) during which time frame(s) and receive notifications regarding door and user activity.

05

Unlimited integration support

Integrating your access control system with a connection to new and innovative services through third-party providers is quick and secure.

Smart access solution for residential living.

Homelok

Salto Homelok enables modern keyless living for residents, streamlines operations for managers and owners, and improves security across all types of residential properties.

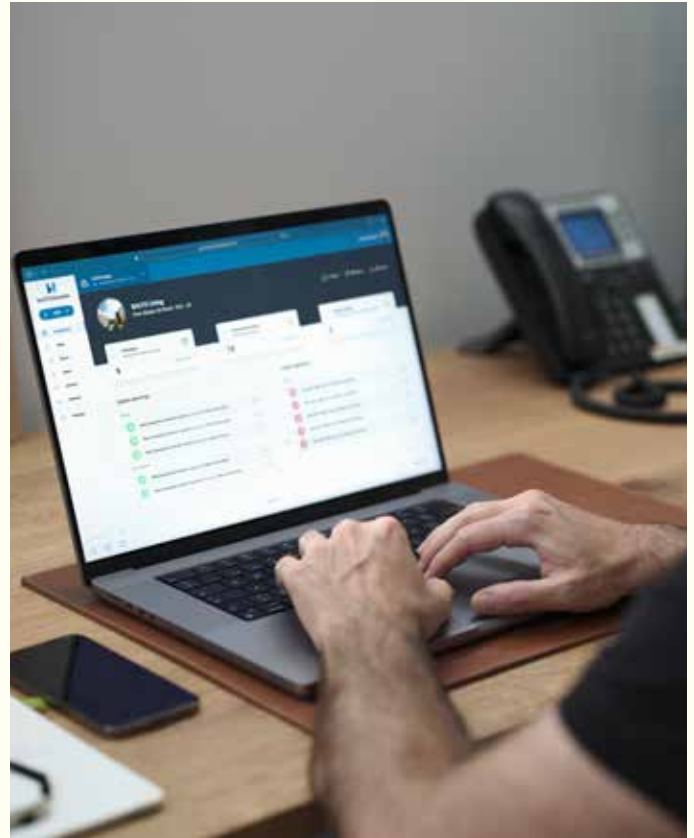

The smart access revolution for residential living.

Homelok is Salto's smart access solution for the residential, multi-family, and smart-living.

Our ground-breaking cloud smart access platform with intelligent, wire-free, and virtually networked electronic locking SVN technology, optimizes hybrid deployments and enables the smart building ecosystem with no need of infrastructure.

Main Features

Provides a smart, modern, and easy-to-install and maintain electronic locking for residential living without the cost and complexity of traditional mechanical access control methods.

01

Keyless access experience

Homelok delivers modern, smart living, giving residents all the benefits of a convenient, seamless digital experience.

02

SVN access-driven hybrid technology

Unique combination of cloud-based and virtually networked, stand-alone and online SVN access technology.

03

Smart living ecosystem

It is an open platform that can be fully integrated across property management systems to meet the growing demand for connected home living.

04

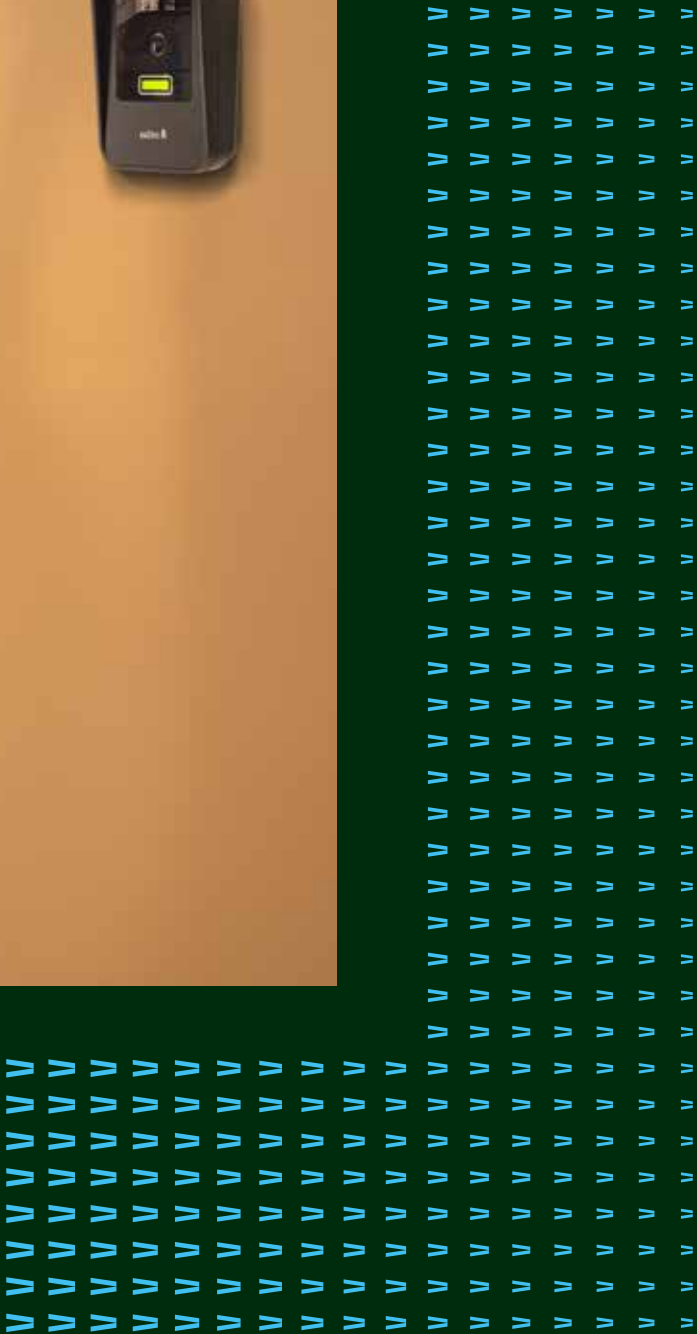

Streamline operations

Bring property management into a new era of capabilities including remote opening; flexible access scenarios; staff, visitor, resident access management - and more.

05

Global product portfolio

Smart access points and a cloud-based platform offer unsurpassed levels of flexibility and security that's globally compatible.

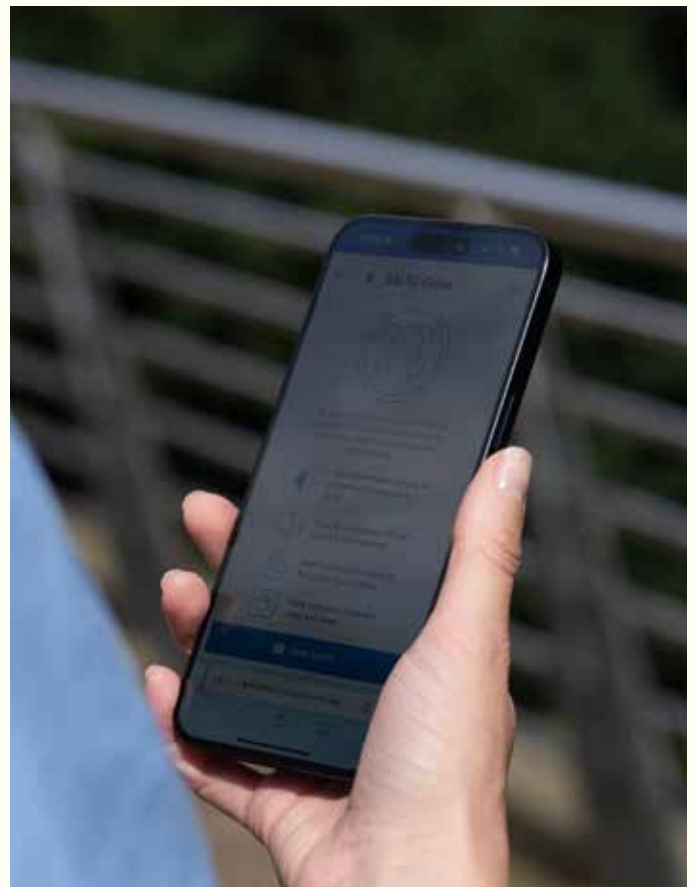

Solutions we provide.

Face Recognition

The innovative face-as-a-credential solution.

This new door access experience, that uses face recognition technology, enables improved security across all doors and for organizations of all sizes.

XS4 Face

Requiring only the user's face as an access credential, XS4 Face bridges Salto access control and face recognition technology.

Face Recognition for access control.

XS4 Face

The first single-source face recognition access control solution.

The innovative face-as-a-credential solution.

Allow users to gain entry using only the face as a unique credential.

By eliminating the need for traditional physical keycards or mobile credentials, users can effortlessly gain access to Salto access points with their unique face credential. Through the enrollment process, users can create their profile remotely, within minutes.

Main Features

Ensure seamless, secure access with cutting-edge face recognition technology. The algorithm, hardware, and software originate from one trusted origin, supported by decades of technology expertise.

01

Enroll users remotely

Transform user enrolment with XS4 Face's secure, remote face recognition technology for effortless, global access management.

02

Simplified installation and deployment

Effortlessly install and configure XS4 Face's technology with an automated process that removes the complexity of traditional systems.

03

Built-in high security and privacy

Experience unparalleled security with high-accuracy facial recognition security.

04

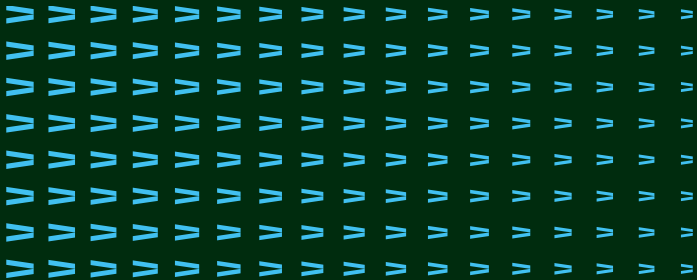

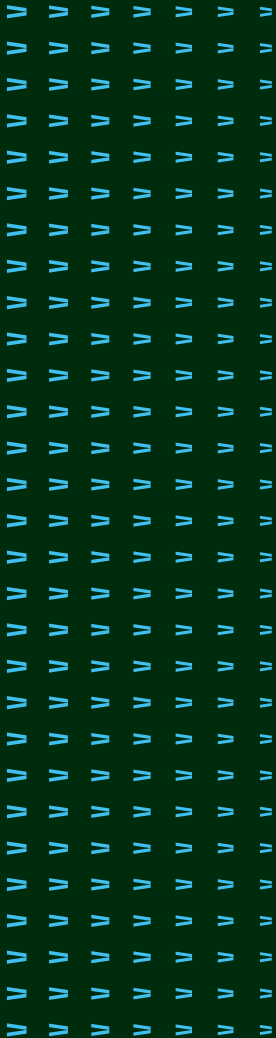

Powered by Salto smart access control

Working with existing Salto electronic door locks and building infrastructure, XS4 Face merges convenience and security, ensuring smooth and reliable entry experiences every time.

05

Easier entrance process

XS4 Face ensures users don't have to make additional access attempts to enter a space, creating a smooth, efficient entry experience.

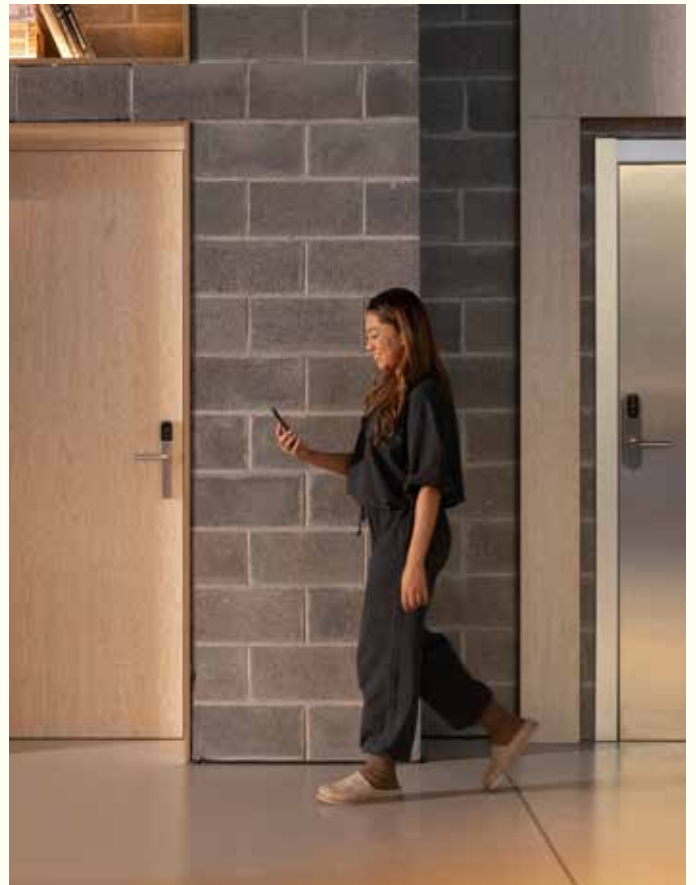

Solutions we provide.

Door Intercom

The smart door intercom solution for modern buildings.

The revolutionary Salto XS4 Com transforms building access and communication by integrating a video door intercom system with the latest in access control technology.

XS4 Com

Smart door intercom and keyless access convenience at the door.

Smart door intercom.

XS4 Com

Revolutionize building access with a connected and convenient smart intercom solution.

Advanced video door intercom system to open and manage doors and gates from anywhere.

Unlock the future of communication with our smart intercom solution. Manage visitor communication and access doors and gates from anywhere, anytime.

The revolutionary Salto XS4 Com transforms building access and communication by integrating a video door intercom system with the latest in access control technology.

Main Features

With our keyless door intercom entry solution, residents, authorized visitors, and guests can effortlessly access a building using just smartphones.

01

Effortless installation

Effortlessly modernize your access system with seamless, app-free entry using just a smartphone – no complex setup required.

02

Efficient communication and convenient access

Enjoy effortless access and secure, instant smart access with real-time video and audio communications.

03

Streamline access

Easily manage access and security from anywhere with a user-friendly intercom system that provides convenient smartphone-based entry.

04

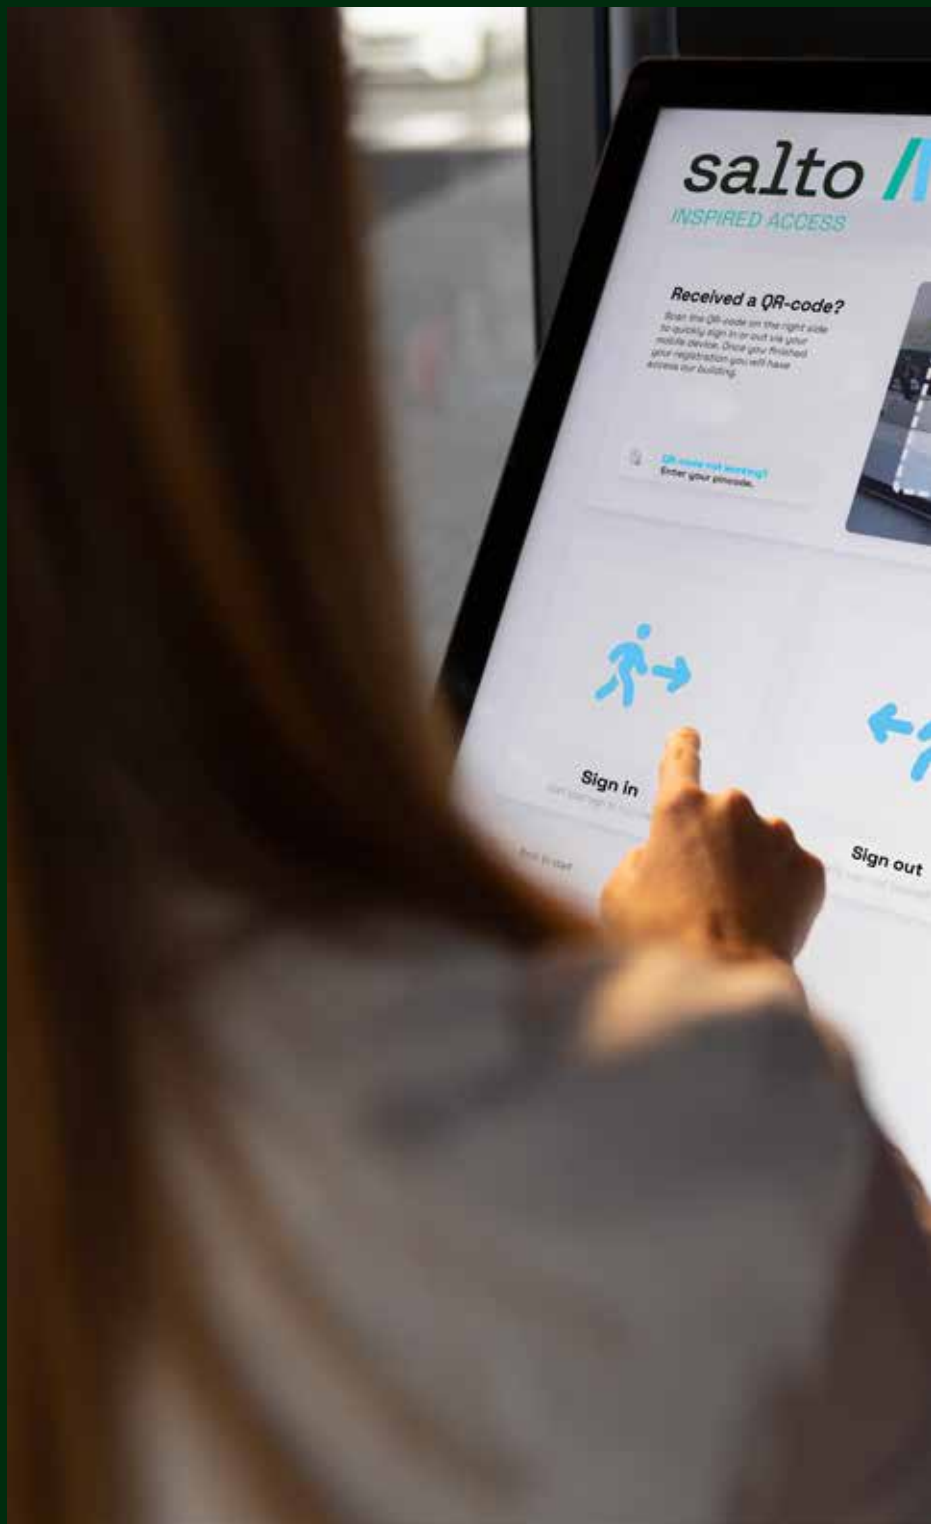

Scalable cloud-based door intercom platform

Experience a unified door intercom and access control platform.

05

Robust security features

Designed with advanced security measures, the system ensures safe access management for both users and visitors.

Solutions we provide.

ID Visitor Management

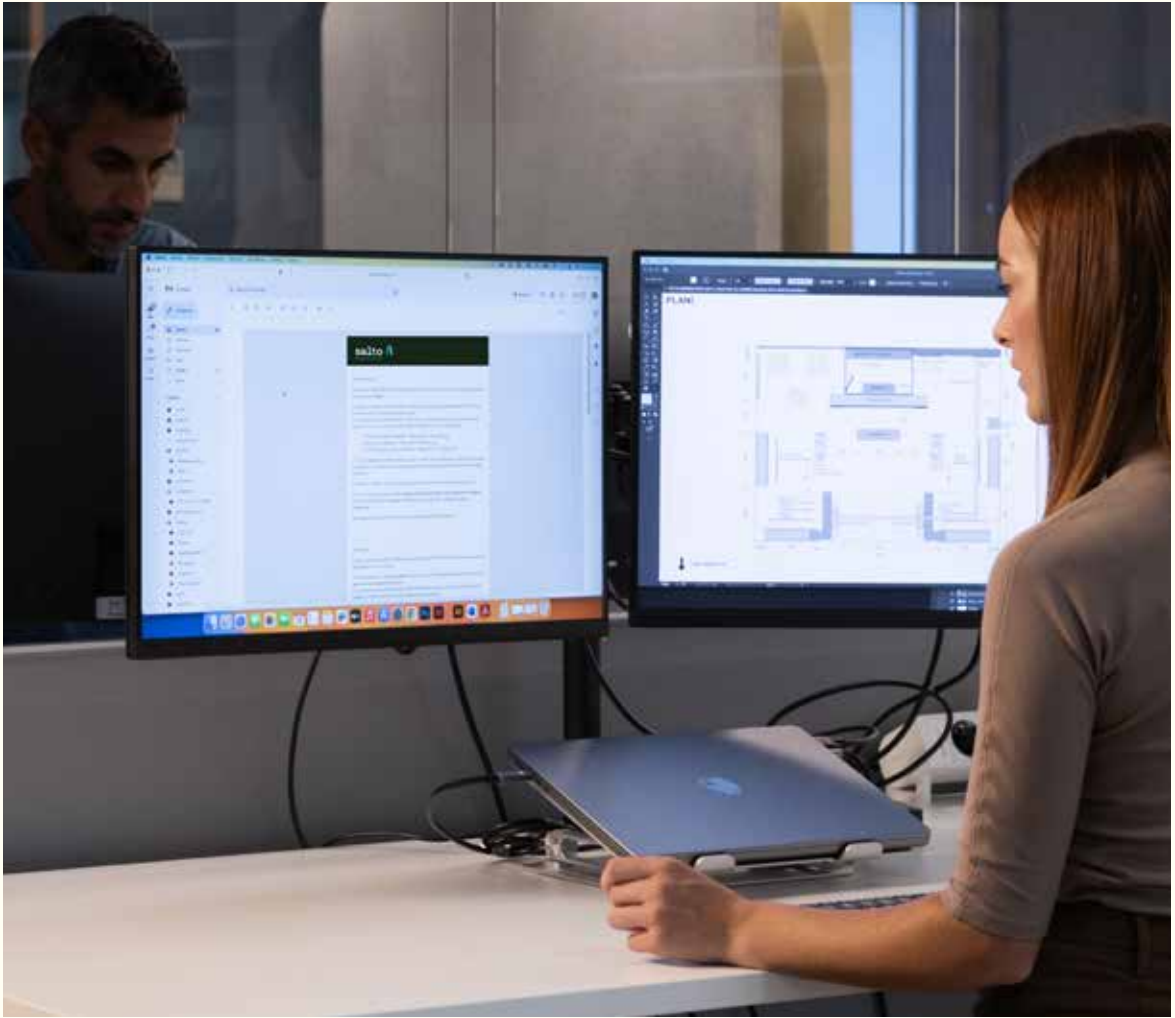

Welcome visitors and contractors with the best possible visitor experience.

Modernize and take the visitor management process to the next level. Simplify the complexity of managing multiple identity types and access needs for physical security.

BlueEntrance

Assign and create credentials for new visitors, assign physical access rights, and easily track visitor movements.

ID Visitor Management.

BlueEntrance

Synchronize visitor management
and physical access control.

**Everything you need
to welcome visitors
and contractors.**

BlueEntrance empowers you to effortlessly invite, register, check-in, and welcome all visitors entering your premises.

BlueEntrance's centralized visitor registration and ID management approach enhances security, streamlines operations, and provides valuable data and insights to optimize the complete visitor check-in process and improve safety & security.

Main Features

Integrates the physical and identity access needs of your workforce, visitors, and extended identities.

01

Welcome visitors

Automate the visitor check-in and check-out process, enhance overall security measures, ensure safety compliance, and track onpremise visitors in real-time.

02

Efficient, safe, and secure access

Automate and enforce compliance with visitor access integration and GDPR policy-based registration regulations across all locations.

03

Simple pre-registration and visitor check-in

Visitors can self-register for a fast, easy, and safe keyless experience.

04

Contactless self-service check-in kiosks

Provide visitors, contractors, and guests with a secure, streamlined, and contactless smart access experience.

05

Frictionless and fast access

Preregistration includes QR code recognition and ID pass, delivering a fast, secure, and fully contactless check-in experience.

Solutions we provide.

Integrations & Technology Alliances

Integrations-ready to support your smart building ecosystems.

With our integration Technology Partners, we deliver comprehensive solutions that unite access control, security, building automation, software, operations, and much more in an all-in-one integrated technology ecosystem.

Our Technology Partner Program serves as the gateway to establishing secure and connected integrations with Salto smart access solutions.

With more than 200 technology partners already enrolled in our ecosystem, we are dedicated to fostering collaborative relationships that drive innovation in the smart access industry.

By working with industry-leading Technology Partners, Salto is able to offer the most comprehensive and robust smart access solutions.

Experience seamless integration and customized functionality with our open architecture, smart access ecosystem. Unlock a new level of control and flexibility using our Software Development Kit (SDK) and API (Application Programming Interface) methodology, along with our SHIP protocol designed for on-premise infrastructures.

Reliable on-premise solutions:

Our integrated technology creates a seamless experience that offers a high level of functionality and security.

Salto delivers a unified and scalable smart access platform with unparalleled support for seamless integration across an expanding ecosystem of applications offered by industry-leading technology providers.

Flexible cloud-based solutions:

Salto's cloud ecosystem is open, flexible, and scalable, supporting unlimited integration possibilities.

By leveraging our API methodology, we unlock access to a world of industry-leading technology partners. Thanks to our collaborations with these partners, we can offer the most comprehensive range of smart access solutions.

The Salto Technology Partner program empowers best-in-class technology companies to link into Salto's smart access solutions and integrate and certify their solutions with Salto's smart locking product portfolio.

We're focused on driving high-value integrations which translate into improved access control solutions for customers and overall operations enhancements for building management. Our successes result in increased market adoption for both Salto and our technology partners.

Products

Salto makes smart access possible on any door . Convert any door into a fully-featured smart door.

Perfect for new projects or door retrofit, we make smart access to any door possible.

We can fulfill virtually any technical and functional requirement and can encompass almost every access point in any building and its perimeter.

Effortlessly secure every door, gate, elevator and access point with future-proofed electronic locking technology.

Designed to be easy to install and retrofit on existing doors, without requiring additional infrastructure or complex wiring, allowing you to keep your original doors and locks in place making installation quick, simple, and cost-effective.

Electronic Locks

Smart, secure, innovative, and easy to install, the Salto electronic locksets need no hard wiring and provide a totally wire-free networked smart electronic locking solution with a great range of features.

Electronic Cylinders

Any building. Any function. Any model or door standard – Salto offers the perfect electronic cylinder lock.

Locker Locks

Salto electronic locker locks offer a safe storage environment at the touch of a mobile app or a keycard.

Electronic Padlocks

The Salto electronic padlock range is designed to meet all your access control needs, built for trusted security in the harshest conditions.

Wall Readers and Access Controllers

Salto's wall readers and controllers are a technological powerhouse for online and real-time access control demands.

Panic Bars and Emergency Exit Devices

Salto's advanced panic bar solutions and emergency exit devices offer next-level safety and security.

XS4

Smart, secure, innovative, and easy to install, the XS4 electronic locking battery-operated range needs no hard wiring and provides a totally wire-free networked electronic locking solution with a great range of features.

XS4 Original+

Unique, simple to install and retrofit, and featuring a sleek design, the XS4 Original+ locking solution integrates all your physical security needs through wireless networked, stand-alone locks giving you real-time access control for virtually all the doors in your building.

Perfect for retrofit, these solutions make smart access to any door possible.

Works with ANSI, Euro, DIN, and Scandinavian door standards.

XS4 One

With the XS4 One, we raise the bar on this already high standard. This all-in-one smart lock is designed to blend into any type of door, access point, and retrofit.

Perfect for retrofit, these solutions make smart access to any door possible.

Built-in reader that is available in black and white – and in seven body finishes that look great on any access point or door.

XS4 Mini

Easy-to-install design, making it a simple, solution for professionals looking to replace traditional mechanical-key-operated locks with the latest in electronic access control.

XS4 Mini

The XS4 Mini wire-free electronic door lock flawlessly combines appealing design and sophistication with robustness and smart access technology.

XS4 Mini ANSI

Easy, simple and quick way to replace existing traditional knob sets, and upgrade them with a state-of-the-art electronic access control system.

Swift and effortless upgrade from your traditional knob or handle set without door replacement or drilling.

Can be customized to meet specific requirements, providing tailored solutions that perfectly fit unique needs.

Designed to meet ANSI A156.2 Grade 1 or 2 cylindrical latch requirements.

Simple installation, using just two screws when installing on new or existing ANSI cylindrical latch door standards.

Ælement

Ælement is a smart lock high design solution that allows you to integrate all your physical security needs into one stylish, energy efficient, reliable, wire-free system.

Ælement Fusion

Ælement Fusion is an electronic lock with a sleek reader accentuated by an interactive light ring that illuminates when access credentials are presented, providing a minimalistic design that blends with any style décor.

Ælement

The Ælement is specially designed to fit on most Euro-DIN and ANSI profile doors. The minimalistic design of the RFID reader looks stylish and discreet on any door.

Small, customizable light ring reader offers a discreet electronic lock for hotels and high-end properties.

Salto offers a variety of door handles and finishes that complement any door style.

Reader body made using double layered injection construction.

Choose from a wide range of designer lever handles and finishes.

Neo

Salto Neo Cylinder delivers an easy-to-use electronic locking platform that integrates all physical security needs through smart, wireless, and battery-operated smart cylinders.

Neo Cylinder

Easy to install and retrofit, the Salto Neo universally compatible cylinder replaces your existing cylinder and fits any door with unlimited models options.

Installation takes less than 5 minutes – and is done without screws or drilling.

Incorporate smartphones – combined with physical keycards, fobs, or wearables – into your access control solution.

Neoxx

Built to withstand all access needs, the Salto Neoxx Padlock series offers a unique solution ideal for utility and critical infrastructure security – electric power stations, telecom network services, industry applications, and more – and property services that need an additional level of security to control specific doors like gates or storages, without losing convenience or control.

Neoxx G4

High-security versatile locking solution built to withstand all access needs, with exceptional attention to detail, a special armoured case with double-layered structure guarantees the ultimate protection from falls, shocks, and the hardest environment or usage.

Instant and reliable access combining the advantages of RFID, Bluetooth LE, and NFC technologies.

Attack resistance:
Mechatronic certification
EN16864:2018 Grade 4.

Neoxx G3

Featuring a special armoured case with a double-layered structure, the Salto Neoxx G3 electronic padlock offers unbeatable protection against falls, shocks, and even the harshest environments or usage.

Provides a keyless solution combining the advantages of RFID, Bluetooth LE, and NFC technologies.

Attack resistance:
Mechatronic padlock
certification EN16864:2018
Grade 1144 - D33 (Grade 3).

XS Reader

Salto wall readers deliver a complete security solution for situations where control must be boosted by online, real-time access control – including barriers, lifts, sliding doors, or electronic gates. With contactless and PIN-code-based operation and audit trail capabilities, they offer a comprehensive solution for organizations seeking enhanced security, keyless convenience, and streamlined access control processes.

Design XS Reader

The Salto Design XS Wall Reader incorporates the Salto cutting-edge design standard in this technological powerhouse, including PIN Code keypad allowing for double authentication and enhanced opening modes,.

Modern aesthetic design with green/red and blue clear LED color optical signal.

Reader is housed in a two-piece, weatherproof secure electronics potted enclosure.

Glass XS Reader

Unmatched design, technology, and convenience – experience innovative access control with the Salto Glass XS Reader series.

Features a sleek, modern design combining elegance and simplicity, all while ensuring top-tier security.

It is engineered with quality materials, including a scratch-proof tempered glass front panel.

Electronic Lockers

Salto electronic lockers solutions are designed to bring the advantages of access control to lockers, cabinets, and other storage spaces in a simple, retro-fit format.

NET.Locker

The Gantner NET.Lock networked locking series provides smart keyless access to storage space for mid to large size locker installations requiring a comprehensive locker management solution with maximum convenience and real-time management.

Offers a discreet and modern, fully clean-line locker design to fit all locker materials.

LED lighting to illuminate the interior of lockers and 2 USB charging ports option to conveniently charge mobile devices.

ECO.Locker

Designed to be integrated into almost every locker lock with an easy installation and retrofit wire-free electronic locker solution.

Ideal solution for customers seeking a cost-effective, electronic stand-alone smart locker system.

Clear, dual color LED light (green/red) to indicate the availability of the locker and acoustic indicators.

XS4 Locker

The XS4 Locker is perfect for controlling access to lockers, cupboards, cabinets, boxes, and show cases, where access control and full audit trailing are required.

Outer thumbturn with red/green indicator for availability of the locker; electronically managed release.

Easy to maintain: battery change is all that's needed.

Industries

Salto delivers the most advanced, flexible, and secure smart access solutions for all industries.

Salto access control solutions are in use worldwide in a never-ending range of challenging and unique applications and facilities.

Connected smart access solutions

As experts in smart access transformation, we are the partner of choice to keep you ahead of change in today's digitally enabled world and security challenges.

Salto has long been known as a leader in smart access technology, making our innovations an essential part of modern security systems.

With the potential to enhance experiences at work, home, and everywhere in between, Salto's vision for 'Empowering Smarter Access' can only be achieved by developing pioneering facility access, identity management, and electronic locking technology. This ensures safe, simple, and convenient experiences in all aspects of building security and operations.

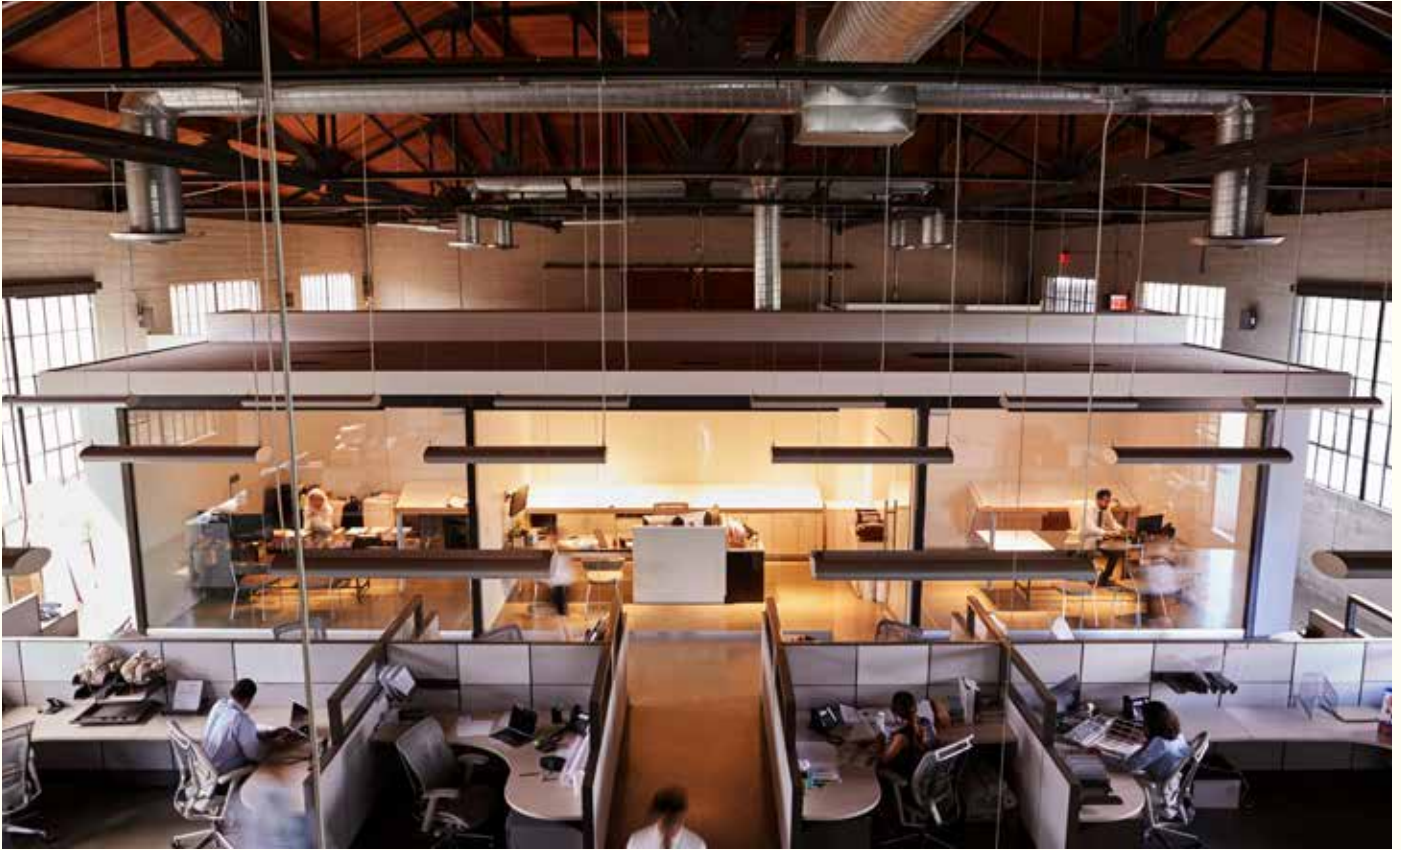

Salto solutions cover many projects in different markets due to the scalability of the system — smaller projects can be implemented and then as required easily expand to larger, even transnational solutions.

Commercial

Smart solutions for more secure enterprises, factories, transport, and public spaces.

Increase security and safety for people and property. Salto delivers the most convenient, flexible, and secure access control solutions for all types of commercial property - Offices, Manufacturing, Industrial sites, Airports, Transportation Infrastructures, Government and Public Sector and many more.

Workspace

Seamless, keyless workspace experiences.

Enhance the access experience for trusted users as you increase security and safety. Improve work space efficiency, utilization, reduce staffing costs, and effortlessly incorporate future growth.

Marine

Make cruise ships safe, secure, and more compliant.

Salto's smart access solutions bring comprehensive and secure smart access to the marine industry, streamlining and unifying onboard experiences. Enhance safety and comfort for passengers and deliver seamless, flexible smart access in line with stringent maritime security and compliance standards.

Sport Facilities

Sports venues and stadium security, and smart access solutions.

Salto offers a complete smart access ecosystem solution for stadiums, arenas, and sports facilities. With innovative access solutions, Salto delivers controlled access and provides the stringent foundation of security required to accommodate the unique operational challenges of sports facilities.

Workforce Accommodation

Comprehensive smart access for remote work camps.

Salto's innovative range of solutions brings secure, flexible, and comprehensive smart access to the workforce accommodation industry. Keyless and convenient, Salto solutions seamlessly integrate advanced access control technologies into existing workforce accommodation and camp service provider ecosystems.

Critical Infrastructure

Securing access control in utilities and critical infrastructures.

Salto's smart access solutions help keep entire sites secure. Starting with perimeter control, Salto's capabilities extend to specific high-value areas or assets – wherever they are located. Salto's cutting-edge technologies safeguard all access points using keyless solutions.

Healthcare

Meeting the unique security challenges of healthcare.

Healthcare facilities present unique access challenges. They must offer a welcoming environment (often 24/7) for a constantly changing user base that includes visitors, patients, staff, and back-of-house areas. Tight control is often needed for specialized areas like pharmacies and equipment rooms.

Education

Salto is the global leader in next-generation access control solutions for schools, colleges, and universities.

Manage and control educational environments better. Balance security with accessibility, and advanced technology with affordability. Salto wire-free, smart access solutions are supporting safe, welcoming campuses in educational facilities and institutions globally to protect our children, teachers, and community in their places of learning.

Hospitality

More than just a guest room lock—
a guest experience.

Salto has become a global leader in delivering access control for hospitality. By developing and delivering the most advanced technology the industry has ever known, Salto empowered property owners and managers worldwide with new ways to secure guests, manage staff, and protect assets.

Residential

Smart-access convenience for secure residential living.

Salto's smart access control technology for the modern multi-family and residential market provides a smart, modern, and easy to install and maintain electronic locking solution without the cost and complexity of traditional access control solutions.

SALTO WECOSYSTEM

We're a community born out of a common goal: empowering access, in every sense - access to places, experiences and opportunities.

SALTO WECOSYSTEM

We're more than a group of companies and individuals.

SALTO WECOSYSTEM at the forefront of the smart access revolution.

We're building for a future that expands smart access to every place. We believe that our industry still has a long way to go, and we want to play an active role in the exciting journey ahead.

SALTO WECOSYSTEM

Our WeConnectors inspire our way

Our culture is shaped by our WeConnectors – five core principles that define how we think, work, and innovate. These values drive everything we do, from the way we collaborate to the products we create.

PROXIMITY TO PEOPLE:

We go further to understand how we can improve people's daily lives with smarter access solutions.

Our people and our clients are at the heart of everything we do. All our experiences, products and solutions are designed around people's needs.

PASSION FOR INNOVATION:

We exceed expectations. Our shared passion drives us to go beyond the status quo.

Through hard work, we push the boundaries of innovation to create solutions that lead our industry forward.

CONNECTION TO EACH OTHER:

We work as a one team. Together, we create solutions that benefit people and planet.

Our natively global team is united by a culture of collaboration. We leverage our diverse expertise to create meaningful value.

AGILE THINKING:

We empower out of the box thinking. By embracing new challenges openly, we inspire inventive solutions.

Creating solutions that respond to growing needs of our society, while unlocking new opportunities that break down barriers and ensure access for all.

INNOVATION IN EVERY STEP:

We are uncompromising. Our commitment to creating positive impact pushes us to work with honesty and efficiency.

We take responsibility for our actions and comply to the highest standards, acknowledging that every decision shapes a more sustainable future.

SALTO WECOSYSTEM

Commitment to Sustainability

Innovating to meet social and environmental challenges.

SALTO WECOSYSTEM companies have undertaken a profound transformation toward achieving an increasingly sustainable model to respond to our environmental and social impacts, and to the main challenges the world faces.

For a few years now, SALTO WECOSYSTEM has been heavily promoting becoming more and more sustainable, minimizing the environmental and social impact of our activities. We have achieved its goal of becoming 100% carbon neutral, reaching 'net zero' CO2 emissions.

SDG Goals

In 2020, Salto committed to following the United Nations' Sustainable Development Goals, aligning our operations to ensure that we respect human rights, safety at work, the environment, and the fight against corruption.

CLIMATE CHANGE AGENDA 2030

SALTO WECOSYSTEM has established a Climate Change Agenda for 2030, and has defined our commitments and actions to be implemented to achieve net zero emissions.

We have transformed our business, adjusted our operations (including bringing key suppliers on board), and integrated the global vision of a circular economy to ensure we reduce our environmental impact in the life cycle of our products.

SALTO FOUNDATION

Empowering community development and social inclusion through sports

SALTO FOUNDATION is part of the SALTO WECOSYSTEM. From our earliest days, Gantner, Salto and Vintia have been on an ambitious journey to help build a more inclusive society and sustainable future.

We are committed to our values and to driving meaningful change through sports, helping individuals and communities overcome challenges, and building a more cohesive and just society.

BEYOND SPORT

SALTO FOUNDATION was built with a vision to connect committed individuals with projects focused on sports and social initiatives within our community.

Rooted in driving change and supporting change-makers, SALTO FOUNDATION aims to empower disadvantaged communities by using sports as a catalyst for change.

Sports are more than just physical activity; they are a powerful tool for building connections, fostering social inclusion, and breaking down barriers.

We aim to strengthen social bonds, reduce inequality, and provide opportunities for integration and social mobility.
